Date 17th September 2013

The Directors of DENTSPLY IH Limited submit their report together with the Financial Statements of the Company for the year ended 31 December 2012

Principal activities and business review

The principal activity of the Company is the sale and distribution of medical devices to hospitals, the community and the dental profession. There have not been any significant changes in the Company's principal activity in the year under review. On 31 August 2011 AstraZeneca PLC sold the business of the Astra Tech group to Dentsply International Inc. Astra Tech Limited changed its name on 1 June 2012 to DENTSPLY IH Limited. On 1 October 2012 DENTSPLY IH Limited acquired the trade and assets of DENTSPLY Fradent, a division of DENTSPLY Limited, a company in the DENTSPLY International group – see note 20 to the financial statements.

Reporting and measuring performance

Sales grew in 2012, with the overall increase in turnover being 6.0% (2011 5.4%).

The Company's gross margin increased to 32.7% (2011 31.4%). Gross profit increased from £12,283k in 2011 to £13,573k.

Operating profit increased from £4,047k to £4,709k, an increase of 16.4%. This represented an increase in operating profit as a percentage of sales of 1 percentage point to 11.3%.

The profit for the year after taxation was £3,558k (2011 £3,057k).

The effective rate of tax for 2012 has decreased to 25%. The decrease in the effective rate for 2012 is mainly due to a reduction in the main rate of corporation tax.

Principal risks and uncertainties

The Company reviews and monitors the risks that face the business as part of an ongoing risk management process.

The principal risks which are therefore considered to be material, in that they may have a significant effect on the Company's financial condition, results of operations and/or reputation, include supply chain and delivery risks and economic and financial risks.

Supply chain and delivery risks - The Company relies on the timely supply of high quality product and interruption to this supply may adversely impact our operations and financial results.

Economic and financial risks - Credit risk is managed by regular review of credit limits and adherence to credit terms. Credit control policies enabled us to minimise the risk. As the Company does not have any bank borrowings, it has no significant exposure to interest rate fluctuations.

Financial risk management - The Company's principal financial risks are those relating to price. The aim of the Company's financial risk management policies is to optimise financial performance by managing and mitigating these risks in a cost-effective manner.

The Company does not have any significant exposure to exchange rate fluctuations as it is invoiced in GB pounds for the majority of its purchased products.

DIRECTORS' REPORT *(continued)*

Future performance

The Company's strategy has one key priority to grow market share at or above market growth rates for all three main product areas

Whilst the Directors are committed to maintaining the profitability of the Company, investment will continue to be made in resources and headcount to enable the Company to achieve its key strategies

Going concern

The Directors believe that the Company has sufficient financial resources and is well placed to manage its business risks successfully despite the current uncertain economic outlook. After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing these financial statements

Directors

The Directors who held office during the year and up to the date of signing the financial statements are presented at the head of this report

The Company made donations to UK charities amounting to £600 (2011 £800). The Company made no political donations

Employees

The Company actively encourages the involvement of employees and a stated policy of the Company is to provide all members of staff with an individual training programme. The methods of involvement include regular staff meetings and intranet updates

In the case of the disabled, the company gives full consideration to applications for employment from disabled persons who can demonstrate that they have the necessary abilities. If an employee becomes disabled whilst in employment and, as a result, was unable to perform his/her normal duties, every effort would be made to offer suitable alternative employment and assist with retraining

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors' Responsibilities set out on pages 2 to 3 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's Financial Statements

Basis of preparation

These Financial Statements are prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom

Under FRS 1 (revised) the Company is exempt from the requirement to prepare a Cash Flow Statement on the grounds that the ultimate parent undertaking, DENTSPLY International Inc, includes the Company in its own published Consolidated Financial Statements. The Consolidated Financial Statements of Dentsply International Inc, within which this Company is included, can be obtained from the address given in note 21

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers

Taxation

Current tax, including UK corporation tax and overseas tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted at the balance sheet date. Except as otherwise required by FRS 19, deferred tax is provided in full on timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax, or a right to pay less tax, in the future. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

Fixed assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows

Short leasehold improvements	-	life of lease
Plant and machinery	-	3 to 10 years
Computer equipment	-	3 to 5 years
Office fixtures and fittings	-	3 to 10 years

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the net identifiable assets and liabilities of the acquired business at the date of acquisition. Goodwill is amortised over an estimated useful life of 20 years

Stocks

Stocks are stated at the lower of cost and net realisable value

Post-retirement benefits

During 2011 the Company participated in the AstraZeneca PLC group wide pension scheme, which includes defined benefit and defined contribution schemes, until the sale of the Astra Tech group on 31 August 2011. After the sale Astra Tech Limited formed a Group Self Invested Pension Plan which is a defined contribution scheme. The assets of the AstraZeneca scheme were held separately from those of the Company. The Company was unable to identify its share of the underlying assets and liabilities of the scheme on a consistent and reasonable basis and therefore, as required by FRS 17 'Retirement benefits', accounts for the scheme as if it were a defined contribution scheme. As a result, the amount charged to the Profit and Loss account represented the contributions payable to the schemes in respect of the accounting periods ending 31 December 2011. In 2012 the amount charged to the Profit and Loss account represents the contributions payable to the Group Self Invested Pension only

Leases

Operating lease rentals are charged to the Profit and Loss account on a straight-line basis over the period of the lease

Foreign currencies

Trading items in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at mid-market rates of exchange ruling at the balance sheet date. Exchange differences arising on transactions are taken to the profit and loss account

The change in the United Kingdom's corporation tax rate from 26% to 24%, with effect from 1 April 2012, was made by two 1% reductions substantively enacted on 19 July 2011 and 26 March 2012. Further reductions of 1% thereafter to 22% by 2014 have been announced but not substantively enacted. This is not expected to have a material impact on tax provisions recognised up to 31 December 2012.
