## Notes to the Abbreviated Accounts for the year ended 31 March 2013

### 1 Accounting Policies

#### 1.1 Basis of Preparation of Accounts

The financial statements are prepared under the historical cost convention and include the results of the Company's operations as indicated in the Directors' report, all of which are continuing.

#### 1.2 Intangible Assets

The company holds leases on small parcels of land on which it plans to erect wind turbines. The market value of these leases is heavily influenced by the wind speed in the area and the availability of a suitable and timeous grid connection. The values are shown in the Profit & Loss account as Work in Progress.

#### 1.3 Turnover

Turnover is represented by change in the market value of the sites on which leases are held.

#### 1.4 Deferred taxation

Deferred taxation is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not they will be recovered. Deferred tax assets and liabilities are not discounted.
