Directors Responsibilities

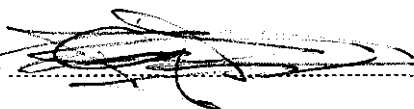

Company law requires directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, directors are required to:

- . select suitable accounting policies and then apply them consistently;
- . make judgements and estimates that are reasonable and prudent;
- . prepare the financial statements on a going concern basis unless it is inappropriate to presume that the company will continue in business.

Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. Directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This report was approved by the board on 27.12.01, and has been prepared in accordance with the special provisions of part VII of the Companies Act 1985 relating to small companies.

'A' PUBLISHING LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED

28 FEBRUARY 2001

1. ACCOUNTING POLICIES

The following accounting policies have been consistently applied in dealing with the items which are considered material in relation to the company's accounts.

1.1 Basis of preparation of accounts

The financial statements are prepared under the historical cost convention and incorporate the results of the principal activity which is described in the directors' report and which is continuing.

The company has taken advantage of the exemption in FRS 1 from the requirement to prepare a cash flow statement on the grounds that it is a small company.

1.2 Turnover

Turnover comprises the invoiced value of goods supplied by the company, net of Value Added Tax and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Motor vehicles	25% reducing balance basis
Office equipment	20% reducing balance basis
Computer Equipment	25% straight line basis

1.4 Stock and work in progress

Stock and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

1.5 Taxation

The charge for taxation is based on the profit for the year and takes into account deferred taxation.

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation and accounts purposes, using the liability method, only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the near future.
