REPORT OF THE DIRECTORS

The directors present their report and the audited financial statements for the year ended 31 December 2011. Comparative information represents the results for the year ended 31 December 2010.

Principal Activity, Review of the Business and Future Prospects

The company serves as an investment holding company. No change to this activity is envisaged.

Results and Dividend

Details of the results for the year are set out in the profit and loss account on page 5. The directors do not recommend payment of a dividend (2010: £nil).

Going Concern

The company has a commitment in writing from its ultimate parent company which confirms that it will not demand repayment of any intercompany loans and will provide financial support for a period of at least twelve months after the signing of these financial statements, if such repayment would leave the company unable to meet its other liabilities. As a consequence, the directors believe that the company is well placed to manage its business risk successfully despite the current uncertain economic outlook. After making enquiries the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the Annual Report and the financial statements.

Directors

The directors of the company during the year and to the date of this report were:

AD Gray
M DeLon Jones
MJ Kachmer
GPB Veal

The Company has qualifying indemnity insurance in place for its directors.

Financial Instruments and Risks

The main financial risk arising from the company's activities is liquidity risk. This is monitored by the board of directors on a regular basis. The company's policy in respect of liquidity risk is to maintain access to a mixture of long term and short term debt finance from group companies.

REPORT OF THE DIRECTORS (continued)

Directors' Responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Auditors

All of the current directors have taken all the steps that they ought to have taken to make themselves aware of any information needed by the company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The directors are not aware of any relevant audit information of which the auditors are unaware.

The auditors, BDO LLP, are deemed to have been reappointed in accordance with section 487 of the Companies Act 2006.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2011

1. ACCOUNTING POLICIES

The financial statements have been prepared on a going concern basis under the historical cost convention in accordance with applicable law and accounting standards in the United Kingdom. The principal accounting policies are summarised below. They have all been consistently applied throughout the current and preceding year.

Consolidated financial statements

The company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included in the consolidated financial statements of The Manitowoc Company, Inc. These financial statements present information about the company as an individual undertaking and not about its group.

Cash flow

The company has taken advantage of the exemption conferred by Financial Reporting Standard 1 "Cash Flow Statements (Revised 1996)" not to prepare a cash flow statement on the grounds that at least 90% of the voting rights are controlled by the group headed by The Manitowoc Company, Inc. and the company is included in its consolidated financial statements.

Investments

Investments are held at cost less permanent diminution in value.

Taxation

Corporation tax payable is provided on taxable profits at the current rate using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

Deferred taxation is provided on timing differences that result in obligations at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and laws that have been enacted or substantively enacted at the balance sheet date. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets and liabilities are not discounted. Deferred tax liabilities are recognised in full. Deferred tax assets are recognised to the extent that it is considered more likely than not that the asset will be recovered.

Foreign currency translation

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.
