### Overview

The Directors present the Strategic Report, Directors' Report and the financial statements of Marlin Europe V Limited (the "Company") for the year ended 31 December 2018.

The Company's principal activity is a non-trading subsidiary.

### Business review and results

The profit before tax for the year amounts to £296,000 (2017 – £nil).

As the performance of Marlin Europe V Limited is linked to the performance of Cabot Credit Management Limited, Key Performance Indicators relating to the Company's trading which are appropriate for an understanding of the development, performance or position of the business can be found in the financial statements of Cabot Credit Management

### Principal risks and uncertainties

The Company is exposed through its operations to the following financial risks:

- cash flow and credit risk; and
- going concern and liquidity risk.

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This section describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

There have been no substantive changes in the Company's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this section.

### Principal financial instruments

The principal financial instruments used by the Company, from which financial instrument risk arises, are as follows:

- trade and other receivables; and
- trade and other payables;

### Cash flow and credit risk

The Company is a member of the Group and therefore its financial risk management objectives and policies are intrinsically linked to those of the Group.

Credit risk is the risk that a customer or counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group's principal activity is the acquisition and management of underperforming consumer loan portfolios; therefore, the Group are exposed to significant credit risk. Most portfolios by their nature are impaired on acquisition and the Group continually monitors cash collections and the carrying values are impaired where the underlying performance does not meet initial expectations. The ongoing risk is managed through a portfolio valuation process including modelling current expectations of recoverability based on historical information on debt types. A pricing review process is in place which includes at least two members of the Board of Directors as well as other key members from all areas of the business. This process is in place to scrutinise all aspects of a portfolio acquisition from reputational and regulatory risk through to the financial assumptions and maximum bid price.

### **Strategic Report For the year ended 31 December 2018**

#### ***Capital risk***

The Company monitors "adjusted capital" which comprises all components of equity i.e. share capital and retained earnings.

The Company's objectives when maintaining capital are:

- to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company sets the amount of capital it requires in proportion to risk. The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

#### ***Going concern and liquidity risk***

The Company's core business is that of a non-trading company. The Company's financial position is therefore partly dependent on the financial condition of the rest of the Group.

The Group has long-term debt financing through Senior Secured Loan notes totalling £872.4 million (2017: £900.5 million). The first tranche of these notes was due for repayment in April 2021.\* The Group also has two Asset Backed Senior Facilities totalling £350.0 million (2017: one of £290.0 million). These facilities are secured until September 2023. The Group has a revolving credit facility of £385.0 million for funding working capital requirements and portfolio purchases as required. At 31 December 2018 £233.9 million had been drawn on this facility (2017: £132.5 million). £375.0 million of this facility is secured until September 2022, and the remaining £10.0 million is secured until September 2021.

\*On 14 June 2019, the Group issued a floating rate, Euro-denominated, senior secured bond for €400 million, with maturity in 2024. These funds were used to repay the £80 million Senior Secured Note and €310 million Floating Rate Note.

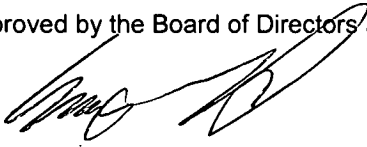

The assets of the Group have been pledged as security for the Senior Secured Loan Notes, Asset Backed Senior Facilities, and the Senior Secured revolving credit facility. In the year to 31 December 2018, the Group has remained compliant with all the covenants contained in the notes issued and the Senior credit facility.

The directors are responsible for preparing the strategic report, the directors' report and the financial statements in accordance with applicable law and regulations.

Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;

### **Independent auditor's report to the members of Marlin Europe V Limited**

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. - the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

#### **Responsibilities of Directors**

As explained more fully in the Statement of Directors' Responsibilities, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Independent auditor's report to the members of Marlin Europe V Limited

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the Financial Reporting Council's website at:

<https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### 2. Basis of preparation and significant accounting policies

#### 2.1. Basis of preparation

The financial statements of the Company have been prepared in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101). The financial statements have been prepared under the historical cost convention, except for the revaluation at current value of certain financial assets. These standards have been applied consistently throughout the current and preceding year.

The financial statements are presented in UK pounds sterling (£), which is the company's functional currency.

The Company has taken advantage of the following reduced disclosure requirements under FRS 101:

- the requirements of IFRS 7 *Financial Instruments: Disclosures*;
- the requirements of paragraph 38 of IAS 1 *Presentation of Financial Statements* to present comparative information requirements in respect of paragraph 79(a)(iv) of IAS 1;
- The requirements of paragraph 10(d), 10(f) and 134-136 of IAS 1 *Presentation of Financial Statements*;
- the requirements of IAS 7 *Statement of Cash Flows*;
- the exemption in paragraph 8(k) of FRS 101 not to disclose transactions with Group companies wherein any subsidiary undertaking which is a party to the transactions is wholly owned by a member of that Group.

The Company has taken advantage of the exemption from preparing consolidated financial statements afforded by section 400 of the Companies Act 2006 as it is a wholly owned indirect subsidiary of Cabot Credit Management Limited and its results are included in the consolidated financial statements of that company. These financial statements therefore present information about the Company as an individual entity alone.

These financial statements have been prepared in accordance with International Financial Reporting Standards and International Accounting Standards as issued by the International Accounting Standards Board (IASB) and Interpretations (collectively IFRSs).

The results of Marlin Europe V Limited are included in the consolidated financial statements of Cabot Credit Management Limited which are available from 1 Kings Hill Avenue, Kings Hill, West Malling, Kent, ME19 4UA.

#### 2.2. Going concern

After making enquiries, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

### 2.3. Summary of significant accounting policies

#### **Taxation**

The tax expense represents the sum of the tax currently payable and deferred tax. It is recognised in the statement of comprehensive income except to the extent that it relates to a business combination, or items recognised directly in equity or other comprehensive income.

#### **Current tax**

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the year end date.

#### **Interest receivable and interest payable**

There are interest receivable and payable to parent and other Group undertakings.

#### **Financial instruments**

#### **IFRS 9**

The Group applied the simplified approach and recorded lifetime expected losses on all trade receivables and intercompany borrowings.

Intercompany borrowings Management have deemed that loans to other group undertakings are at a market rate and therefore the carrying value of the loans are an accurate approximation of fair value. Management determine impairment based on the borrowers' historically observed data, adjusted for forward-looking information. With regard to lifetime expected losses Management have assessed that any such losses are immaterial.

#### **Financial assets**

Trade and other receivables are classified as loans and receivables and are measured at cost less any impairment.

#### **Financial liabilities**

Financial liabilities are initially recognised at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. Subsequently, they are carried at amortised cost using the effective interest rate method.

### 2.4. Changes in accounting policies and disclosures

#### **IFRS 15 Revenue from Contracts with Customers**

IFRS 15 establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard supersedes all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018, and the Company has adopted the new standard on the required effective date, 1 January 2018.
