1. **STATUTORY INFORMATION**

   Europa House Ltd is a private company, limited by shares, registered in England and Wales. The company’s registered number and registered office address can be found on the Company Information page.

2. **ACCOUNTING POLICIES**

   **Basis of preparing the financial statements**

   These financial statements have been prepared in accordance with the provisions of Section 1A “Small Entities” of Financial Reporting Standard 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

   **Turnover**

   Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

   **Financial instruments**

   A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument.

   Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

   Debt instruments are subsequently measured at amortised cost unless they are classified as receivable within one year in which case they are measured at the undiscounted amount of the cash or other consideration expected to be received net of impairment.

   Financial liabilities that are classified as payable within one year are subsequently measured at the undiscounted amount of the cash or other consideration expected to be paid.

   Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset or settle the liability simultaneously.

   **Taxation**

   Taxation for the period comprises current and deferred tax. Tax is recognised in the Profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

   Current or deferred taxation assets and liabilities are not discounted.

   Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

   **Deferred tax**

   Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

   Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

   Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

3. **EMPLOYEES AND DIRECTORS**

   The average number of employees during the period was NIL.
4. **DEBTORS: AMOUNTS FALLING DUE WITHIN ONE YEAR**
