J H Weston Smith
N S J Ritblat (Resigned 31 August 2005)
R E Bowden
G C Roberts
M I Gunston
C M J Forshaw

The directors' interests in the share and loan capital of the company are set out in note 12 to the financial statements.

Statement of directors' responsibilities

United Kingdom company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for the system of internal control and for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

FRP GROUP LIMITED

**INDEPENDENT AUDITORS' REPORT
for the year ended 31 March 2005**

To the members of FRP GROUP LIMITED

We have audited the financial statements of FRP Group Limited for the year ended 31 March 2005 which comprise the profit and loss account, balance sheet, statement of total recognised gains and losses, note of historical cost profits and losses and the related notes 1 to 19. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in our auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As described in the statement of directors' responsibilities the company's directors are responsible for the preparation of the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibility is to audit the accounts in accordance with United Kingdom legal and regulatory requirements and auditing standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company is not disclosed.

We read the directors' report for the above year and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

Basis of audit opinion

We conducted our audit in accordance with United Kingdom auditing standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements and of whether the accounting policies are appropriate to the circumstances of the company, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the company at 31 March 2005 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Notes to the accounts for the year ended 31 March 2005

1. Accounting policies

The principal accounting policies are summarised below. They have been applied consistently throughout the current and the previous year.

These financial statements are designed to cover a wide variety of companies and circumstances. As a result some notes or some entries in the primary statements or the notes may not be relevant for this company and so may be intentionally left blank.

Accounting basis

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards and under the historical cost convention as modified by the revaluation of investment properties and fixed asset investments.

The company has taken advantage of the exemption from preparing consolidated financial statements afforded by Section 228 of the Companies Act 1985 because it is a wholly owned subsidiary of another company. Group financial statements which include the company, for The British Land Company PLC are publicly available (see note 19).

The company is also, on this basis, exempt from the requirement of FRS 1 to present a cash flow statement.

Properties

Investment properties, including freehold and long leasehold properties, are independently valued each year on an open market basis. Any surplus or deficit arising is transferred to revaluation reserve, unless a deficit is expected to be permanent, in which case it is charged to the profit and loss account. The profit on disposal is based on book value.

In accordance with Statement of Standard Accounting Practice 19 no amortisation or depreciation is provided in respect of freehold or long leasehold properties. The directors consider that this accounting policy, which represents a departure from the statutory accounting rules, is necessary to provide a true and fair view. The financial effect of the departure from these rules cannot reasonably be quantified as depreciation or amortisation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified. Where properties held for investment are appropriated to trading stock, they are transferred at market value.

Development properties are included in investment properties and stated at cost, except where the open market value falls below cost, when they are revalued to the lower amount. The revaluation deficit is transferred to the revaluation reserve unless it represents a clear consumption of economic benefits, in which case it is charged to the profit and loss account. The cost of properties in course of development includes attributable interest and other outgoings having regard to the development potential of the property. Interest is calculated on the development expenditure by reference to specific borrowings where relevant and otherwise on the average rate applicable to short-term loans. Interest is not capitalised where no development activity is taking place.

A property ceases to be treated as a development on practical completion.

FRP GROUP LIMITED

Notes to the accounts for the year ended 31 March 2005

1. Accounting policies (continued)

Investments

Fixed asset investments are stated at market value when listed and at directors' valuation when unlisted. Any surplus or deficit arising on revaluation is taken to revaluation reserve, unless a deficit is expected to be permanent, in which case it is charged to profit and loss account.

Investments in subsidiaries are stated at cost or directors' valuation less provision for impairment.

Taxation

Corporation tax payable is provided on taxable profits at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

On disposal of an investment property the element of tax relating to the profit in the year is charged to the profit and loss account and the element relating to earlier revaluation surpluses is included in the statement of total recognised gains and losses.

Deferred tax assets and liabilities arise from timing differences between the recognition of gains and losses in the accounts and their recognition in a tax computation.

Deferred tax is provided in respect of all timing differences that have originated, but not reversed, at the balance sheet date that may give rise to an obligation to pay more or less tax in the future. Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements.

Deferred tax is measured on a non-discounted basis. A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Net rental income

Rental income is recognised on an accruals basis, exclusive of service charges receivable. Rent increases arising from rent reviews are taken into account when such reviews have been settled with tenants. Where a lease incentive does not enhance the property, it is amortised on a straight-line basis over the period from the date of lease commencement to the earlier of the first rent review to the prevailing market rent, the first break option, or the end of the lease term. On new leases with rent free periods, rental income is allocated evenly over the period from the date of lease commencement to the earlier of the first rent review to the prevailing market rate and the lease end date. Service charges and other recoveries are credited directly against relevant expenditure.

Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction or, if hedged, at the forward contract rate. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date or, if appropriate, at the forward contract rate. All exchange differences are included in the profit and loss account.

Pensions

The amount charged to the profit and loss account in respect of pensions costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.
