Chairman's Report
for the Year Ended 30 June 2019

I write to update you on developments within the portfolio during the year ended 30th June 2019. I am pleased to report progress at a number of portfolio companies. This has resulted in an overall increase in the value of the portfolio. A profit for the year of £0.83 million was achieved and an equivalent increase in net assets to £40.4 million. This equates to 11.6p per share.

I have previously written about your board's twin track approach: to add operational and strategic value to the portfolio and to make realisations and subsequent returns of capital. I have also made clear that as minority shareholders we are unable to control the timings of realisations. I would have preferred to now be writing about further successful exits. Whilst I can report that we are in discussions regarding the sale of one of our holdings, these are ongoing and so it would be premature to predict the outcome.

Let me now update you on the portfolio.

ITWP Acquisitions Limited ("Toluna")

Toluna remains a very important holding to Eurovestech. Our 14.8% shareholder in this world- leading provider of on demand consumer insights accounts for 70% of the value of our portfolio.

We have been shareholders in this business for almost two decades, when we received its start-up business plan. We recall in 2000, providing initial funding, in 2005, it's successful listing on the London Stock Exchange with revenues of just £1 million and in 2011, the take private transaction, valuing the business at £161 million. Our shareholding, which cost £2 million, has to date returned £40 million in cash. However, our focus is on maximising future returns.

For the year to December 2018, Toluna reported revenues of £134 million, an increase of 12.5%. Cash generated from operations was £13.4 million. During the year under review, we have seen Toluna continuing to increase its direct relationships with global brands. This is an important development. Toluna's panel community now stands at more than thirty million.

VizEat

VizEat which now trades as Eatwith, remains the 'airbnb of dining.' We are proud both to have been VizEat's initial investor and to have board representation to assist in the development of the business.

Eatwith is the world's largest community for authentic culinary experiences with locals, available in over 130 countries. It connects people who are seeking unique and immersive experiences with hand-selected local hosts, in private homes and exclusive venues. From home-cooks and food lovers to MasterChefs and Michelin-starred chefs, its hosts share one special ingredient: a passion for bringing people together through food.

During the year, the business signed several key partnerships with leading global hotel chains and travel sites. The strategic partnership with China's CTrip, which has 250 million clients is providing access to an important source of diners.

Eurovestech 17.8% stake in VizEat is valued at £4.3 million.

Other portfolio companies

Despite the weighting of ITWP/Toluna in our portfolio, it is pleasing to be able to report increased profits and improving prospects at other investee companies.

Magenta Technology and its Maxoptra business address the fleet management industry. Its cloud- based delivery management and route optimisation solutions meet the needs of fleet operators. I am encouraged to report that the business is now experiencing strong growth in revenue and profits. As a result, the carrying value of Eurovestech 49.6% holding has increased to £4.6 million from £3.7 million.

LogNet provides a complete web-based platform for travel agents and tour operators. In the year to December 2018, the business generated a profit of £0.3 million as against a loss in 2017 of £0.1 million. Revenue rose from £4.4 million to £5.3 million. Encouragingly, the business is experiencing further sales growth. Eurovestech's 23% holding is valued at £1.4 million.

Chairman's Report
for the Year Ended 30 June 2019

I am also delighted to report that prospects at sound separation company Audionamix are better than ever. Over the summer, Audionamix recruited a new Chief Executive. The business is seeing increasing visibility of sustainable and substantial revenues. After many years of investment from Eurovestech, it is now expected to hit profitability during 2020. In order to get to this position, since its restructure, Eurovestech has made loans to Audionamix of £1.3 million. Together with interest due to Eurovestech, £1.9 million is included in Eurovestech's balance sheet within debtors. In addition, the investment has a carrying value of £1.5 million for a holding of 99.9% of the issued share capital of Audionamix.

Results and balance sheet

For the year, Eurovestech achieved pre and post-tax profits of £0.83 million. As a result, net assets rose by this amount to £40.4 million, equivalent to 11.6p per share.

As reported last December, Eurovestech has a £2 million unsecured outstanding loan repayable in December 2020. In addition, included within debtors, is an unsecured interest free loan of £0.35 million from Eurovestech's Chief Executive.

Share buy-back facility

Shareholders wishing to sell their shares should contact the company. The company will provide details of the stockbroker acting on behalf of the company to buy shares.

Summary

The tangible progress at many portfolio companies is clear. This can only drive shareholder value. Shareholders are aware that in recent months, the marketability of many smaller companies has deteriorated significantly. However, trade purchasers are still very much active and so the path to realisations seems clear. Our focus is clear.

R H Grogan
Chairman

12 December 2019

Strategic Report
for the Year Ended 30 June 2019

The directors present their strategic report for the year ended 30 June 2019.

This strategic report has been prepared in compliance with Section 414C of the Companies Act 2006 for the purpose of informing the members and helping them assess how the directors have performed their duty under Section 172 of the Companies Act 2006 to promote the success of the company.

REVIEW OF BUSINESS

The company recorded a profit for the financial year after taxation amounting to £829,870 (30 June 2018: Loss of £211,298). This is due to the revaluation of investments in the year. Further details of the company's performance are given in the Chairman's Report on pages 2 to 3 of these financial statements.

The directors do not recommend any dividends for the year (30 June 2019: £nil) and no dividend was paid in the year (30 June 2018: £nil).

Future developments

Details of future developments are detailed in the Chairman's statement on pages 2 to 3 of these financial statements.

Key performance indicators

The Company considers its key performance indicators to include growth in the value of its investment portfolio and total funds returned to shareholders. The company is actively looking to sell the investments held in the portfolio with a view to returning funds to shareholders.

The performance of the company is reflected in the performance of the Company's investment portfolio which shows a carrying value of £40.3 million at 30 June 2019 compared to £39.4 million for 30 June 2018. There have been no new investments in the year and no disposals. The movement in the carrying value of the portfolio is down to revaluations at 30 June 2019 of Magenta, Lognet Information Systems, Supponor and VizEat.

In the last year no surplus funds were returned to shareholders.

PRINCIPAL RISKS AND UNCERTAINTIES

The principal risk regarding the future financial performance of Eurovestech Plc is the future performance of its portfolio.

A key risk for Eurovestech Plc is the identification and evaluation of investments. Executive management seeks to moderate the risk by undertaking comprehensive studies in co-operation with outside resources provided by appropriate industry and professional specialists of potential investments, and hence having greater assurance over the future success of investments it enters into. A further key risk is the successful performance of the existing investment portfolio. This is mitigated through monitoring of regular reporting by investee companies and working closely with their management, often through holding board positions at each investee company.

Financial Risk management

The company's strategy is to follow an appropriate risk policy, which effectively manages exposures related to the achievement of business objectives. The company's activities expose it to a variety of risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the company's financial performance. Risk management is carried out by the board and their policies are outlined below.

Foreign exchange risk

The Company is exposed to translation and transaction foreign exchange risk as it operates primarily within Europe and the US with transaction denominated in Sterling, Euros and US dollars. The Company policy is to try to match the timing of the settlement of sales and purchase invoices so as to aim to eliminate currency exposure.

The Company does not hedge any transactions and foreign exchange differences on re-translation of foreign assets and liabilities are taken to the Profit and Loss Account. The Company does not consider there to be a significant risk from its investments.

Strategic Report
for the Year Ended 30 June 2019

Sensitivity to reasonably possible movements in exchange rates can be measured on the basis that all other variables remain constant. Strengthening or weakening of the Euro or US dollar against Sterling would impact equity and the results for the year.

The majority of the Company's financial assets are held in Sterling but movements in the exchange rate of the Euro and the US dollar against Sterling have an impact on both the result for the year and equity.

Interest rate risk

The Company finances its operations through equity fundraising and therefore does not carry significant borrowings. As the Company carries no long-term borrowings, the Directors consider that there is no significant interest rate risk.

Price risk

The Company is exposed to equity securities price risk because investments are held by the Company classified in the Balance Sheet "at fair value through profit or loss". During the last year share prices have remained volatile and had the quoted prices of these investments increased or decreased the net result for the year would have been affected. As changes in valuation are taken to the Profit and Loss Account, the equity of the Company would have impacted by the same amount.

Credit risk

Credit risk refers to the risk that a counter-party will default on its contractual obligations resulting in financial loss to the Company. In order to minimise the risk, the Company endeavours only to deal with companies (including investee companies) which are demonstrably creditworthy and this, together with the aggregate financial exposure, is continuously monitored. The maximum exposure to credit risk is the value of the outstanding amount.

Provision of services by the Company results in trade debtors which the management considers to be of low risk. Other debtors include subscription monies from shareholders and are likewise considered to be low risk. Management do not consider that there is any concentration of risk within either trade or other debtors. No trade or other debtors have been impaired.

Credit risk on cash and cash equivalents is considered to be small as the counter-parties are all substantial banks with high credit ratings. The maximum exposure is the amount of the deposit.

Liquidity risk

The Company currently holds substantial cash balances in Sterling to provide funding for normal trading activity. The Company also has access to additional equity funding and, for short term flexibility, overdraft facilities would be arranged with the Company's bankers. Trade and other creditors are monitored as part of normal management routine.

Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other members. The Company will also seek to minimise the cost of capital and attempt to optimise the capital structure. Capital for further development of the Company's activities is achieved by disposals and share issues. Dividends were paid to shareholders during the previous year, but not during the current year, following investment disposals and further capital returns may continue. The Company does not carry significant debt. There is no material difference between the fair values and the carrying values of these financial instruments.

ON BEHALF OF THE BOARD:

R P Bernstein - Director

12 December 2019

Report of the Directors
for the Year Ended 30 June 2019

The directors present their report with the audited financial statements of the company for the year ended 30 June 2019.

PRINCIPAL ACTIVITIES

The principal activities of the company in the year under review were those of investment in technology businesses.

DIVIDENDS

No dividends will be distributed for the year ended 30 June 2019.

RESEARCH AND DEVELOPMENT

The Company does not perform any research and development activities.

EVENTS SINCE THE END OF THE YEAR

Information relating to events since the end of the year is given in the notes to the financial statements.

DIRECTORS

The directors shown below have held office during the whole of the year from 1 July 2018 to the date of signing this report.

R P Bernstein
R H Grogan
Q C M Solt

The Directors have all occupied, or occupy, senior positions in UK and/or non-UK listed companies and have substantial experience in business. All of the Directors will submit themselves for re-election at the forthcoming Annual General Meeting in accordance with the Code.

Financial instruments

The company's principle financial instruments comprise cash, trade debtors and loans, investments and creditors. The main risks associated with these financial assets and liabilities are set out in the strategic report. There is a detailed analysis of financial instruments in note 16 to the financial statements.

Corporate governance

The Company is committed to a high standard of corporate governance and supports the principles laid down in the Combined Code 2010 (the "Code").

The board

The board of Directors (the "board") currently has three members, comprising the Non-Executive Chairman, Chief Executive, Director of investments and one further independent Non-Executive Director. All of the Directors bring strong judgement to the board's deliberations. The board is of sufficient size and diversity that the balance of skills and experience is considered to be appropriate for the requirements of the business. For the Non-Executive Directors who have served a term greater than nine years, a thorough review of their continued independence and suitability to continue as Directors is performed each year. The Non-Executive Directors may continue to serve more than nine years, subject to a thorough review of their continued independence and suitability.

The Chairman and Chief Executive

The Directors confirm that the Company has complied with the requirement to be headed by an effective board and to lead and control the Company. The division of responsibilities between the Chairman of the board and the Chief Executive is clearly defined. The Chairman leads the board in the determination of its strategy and in the achievement of its objectives. The Chairman is responsible for organising the business but has no involvement in the day-to-day business of the Company. The Chief Executive has direct charge of the Company on a day-to-day basis and is accountable to the board for the financial and operational performance of the Company.

Report of the Directors
for the Year Ended 30 June 2019

Role of the board

The board is collectively responsible for the proper management of the Company. The board has a formal schedule of matters reserved to it for decision making, including responsibility for the overall management, performance and strategy of the Company, approval of annual and interim results, material acquisitions and disposals, material agreements and assessment of its going concern position.

Board members are given appropriate documentation in advance of each board or committee meeting, This normally includes information on current trading of its investee companies and additional information on other matters where the board is required to reach a decision.

Board committees

There are a number of committees of the board to which various matters are delegated. Details are set out below:

Remuneration Committee

The Remuneration Committee consists of the two Non-Executive Directors of the Company. Richard Grogan acts as the Chairman. The committee is responsible for: (i) making recommendations to the board on the Company's policy on the remuneration of the Executive Directors; (ii) the determination of the remuneration packages for each of the Executive Directors including any compensation payments and benefits; and (iii) the determination of awards under the Company's employee share plans to the Executive Directors and other employees of the Company. The Chairman of the committee reports the outcome of its meetings to the board.

Nomination Committee

The Nomination Committee comprises Richard Grogan and Quentin Solt, who acts as its Chairman. The committee meets as necessary and is responsible for considering and recommending to the board persons who are appropriate for appointment as Executive and Non-Executive Directors. There is a formal, rigorous and transparent procedure for the appointment of new Directors to the board under which the Nomination Committee considers suitable candidates who are proposed either by existing board members or by an external search firm. Careful consideration is given to ensure proposed appointees have enough time available to devote to the role and that the balance of skills, knowledge and experience on the board is maintained. When the committee has found a suitable candidate, the Chairman of the committee will make a proposal to the whole board, which has retained responsibility for all such appointments. The Chairman of the committee reports the outcome of its meetings to the board.

Audit Committee

The Audit Committee comprises Quentin Solt as Chairman and Richard Grogan. No Non-Executive Director currently has recent and relevant financial experience as required by the Code and this matter is under consideration by the Nomination Committee as part of their review of the existing board composition. Senior financial employees of the Company are also invited to attend by the committee as appropriate.

The role of the Audit Committee is to monitor the financial reporting process, the integrity of the Company's annual financial statements and the statutory audit of the financial statements. It is also responsible for reviewing the Company's internal financial control and risk management systems and the Company's relationship with the external auditors.

Shareholder relations

The Committee is committed to maintaining good communications with shareholders. The Chairman and Chief Executive have dialogue with individual shareholders in order to develop an understanding of their views which are fed back to the board. Presentations are made to analysts, investors and prospective investors covering the annual and interim results. The Company Secretary generally deals with questions from individual shareholders. All shareholders have the opportunity to ask questions to any of the Directors at the Company's Annual General Meeting each year. The Chairman will advise shareholders on proxy voting details.

Report of the Directors
for the Year Ended 30 June 2019

Directors and Directors' interests

The present membership of the board is set out below. All Directors served during the year and up to the date of signing the financial statements.

	Salary and fees	Benefits in kind	Bonus	2019 Total	2018 Total
	£	£	£	£	£
Executive Director					
Richard Philip Bernstein	181	-	-	181	225
Non-Executive Directors					
Richard Henry Grogan	15	2	-	17	22
Quentin Colin Maxwell Solt	31	-	-	31	42
	227	2	-	229	289

Save for the employee incentive arrangements noted above, no Director had either during or at the end of the year a material interest in any contract which was significant in relation to the Company's business.

Directors' interests in shares

The interests of the Directors and their families in the shares of the Company at 30 June 2019 and 30 June 2018 were as follows:

	30 June 2019	30 June 2018	30 June 2019	30 June 2018
	Number of shares	Number of shares	Number of options	Number of options
Richard Philip Bernstein	13,263,568	7,363,589	-	-
Quentin Colin Maxwell Solt	3,365,019	3,275,019	-	-
Richard Henry Grogan	-	-	-	-

Directors' Indemnities

The Company has entered into indemnities with each of the Directors. The indemnities are in the form of Qualifying Third Party Indemnity Provisions consistent with Section 234 of the UK Companies Act 2006 and have been in force throughout the year and to the date of signing the financial statements. These are available for inspection at the Company's registered office.

Internal control

The board is responsible for the Company's system of internal controls and reviewing its effectiveness, Internal control systems are designed to meet the particular needs of the company concerned and the risks to which it is exposed and, by their nature, can provide reasonable but not absolute assurance against material misstatement or loss.

The Executive Director monitors the Company's investments regularly, through receipt of financial reporting and frequent communication with investee management, including attendance at board meetings. Where possible, and prior to investing, the Company will seek to ensure that portfolio company Shareholder Agreements provide the Company with the right to receive timely monthly financial information.

The Executive Director also monitors the system of internal controls at subsidiary companies and review their effectiveness. Whenever the Company deals in quoted investments, controls are placed on the execution of trades and all transactions are confirmed in writing on the same day as the trade is executed. The Chief Executive monitors all current asset investments on a daily basis.

The Company remains mindful to the requirements of the Bribery Act and no changes were deemed necessary to its existing policy during the year.

The Directors have considered whether it is appropriate to have an internal audit function. Given the scale of the Company, it is not considered appropriate at this time.

Report of the Directors
for the Year Ended 30 June 2019

Charitable donations

During the year to 30 June 2019 charitable donations were made of £nil (2018: £nil). There were no political donations.

Payment policy and practice

It is the Company's policy to settle the terms of payment with suppliers when agreeing the terms of the transaction and to abide by them. Company trade creditors represented 30 days (30 June 2018: 29 days) of related expenditure in the year. All investment transactions are settled as they become due.

DISCLOSURE IN THE STRATEGIC REPORT

The review of business is now disclosed in the Strategic Report on pages 4 to 5 of these financial statements.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT AS TO DISCLOSURE OF INFORMATION TO INDEPENDENT AUDITORS

So far as the directors are aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the company's auditors are unaware, and each director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

INDEPENDENT AUDITORS

The independent auditors, Lawrence Johns, will be proposed for re-appointment at the forthcoming Annual General Meeting.

ON BEHALF OF THE BOARD:

R P Bernstein - Director

12 December 2019

Opinion

We have audited the financial statements of Eurovestech Plc (the 'company') for the year ended 30 June 2019 which comprise the Statement of Comprehensive Income, Balance Sheet, Statement of Changes in Equity, Cash Flow Statement and Notes to the Cash Flow Statement, Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Reporting on other information

The directors are responsible for the other information. The other information comprises the information in the Annual Report, but does not include the financial statements and our Report of the Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Report of the Directors have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Report of the Directors.

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities set out on page nine, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our Report of the Auditors.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in a Report of the Auditors and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

	£	£
Cash and cash equivalents	<u>131,834</u>	<u>19,997</u>

Notes to the Financial Statements
for the Year Ended 30 June 2019

1. **COMPANY INFORMATION**

Eurovestech Plc is a limited company domiciled and incorporated in England and Wales. The registered office is 17c Curzon Street, London, W1J 5HU.

2. **ACCOUNTING POLICIES**

Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest pound.

The financial statements have been prepared on the historical cost convention, however some financial assets have been modified by revaluation to be held at fair value through the profit and loss. The principal accounting policies adopted are set out below.

Turnover

Turnover is recognised at the fair value of the consideration received or receivable for services provided in the normal course of business, and is shown net of VAT.

Tangible assets

Depreciations is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	-	25% on cost
Computer equipment	-	25% on cost

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Investments

Interests in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. The investments are assessed for impairment at each reporting date and any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

A subsidiary is an entity controlled by the company. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

2. ACCOUNTING POLICIES - continued

Financial assets

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets consist of loans and receivables and investments at fair value through profit or loss.

Financial assets are classified into specific categories. The classification depends on the nature and purpose of the financial assets and is determined at the point of recognition. Basic financial assets, which include trade and other receivables and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Investments - non-current

As the Company's business is investing in financial assets with a view to profiting from their total return in the form of increases in fair value, non-current investments are designated at fair value through profit or loss on initial recognition. The Company manages and evaluates the performance of these investments on a fair value basis in accordance with its investment strategy and investment information provided to the board of Directors.

De-recognition of investments occurs when the rights to receive cashflows from the investments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.

Fair value represents the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction. In estimating fair value, the Directors use a methodology which is appropriate in light of the nature, facts and circumstances of the investment and its materiality in the context of the total investment portfolio.

Methodologies are applied consistently from one year to another except where a change results in a better estimate of fair value. Only where fair value cannot be reliably measured is cost used as the basis of valuation.

The principal methodologies applied in valuing unlisted investments include the following:

- earnings multiple;
- price of recent investment; and
- net assets.

In applying the earnings multiple methodology, the Directors apply a market-based multiple that is appropriate and reasonable to the sustainable earnings of the Company. In the majority of cases the enterprise value of the underlying business is derived by the use of a multiple of earnings before interest and tax applied to current year's earnings where these can be forecast with a reasonable degree of certainty and are deemed to represent the best estimate of maintainable earnings. Where this is not the case, historic earnings will generally be used in their place. For companies which are early stage or not profitable, a multiple of revenue is used as the key measurement.

Listed investments held for long-term gain are valued on the basis of the bid price at the year-end date.

Investments - current

Current asset investments are classified as held for trading and are measured at fair value with gains and losses arising on their fair value recorded in the Profit and Loss Account. Listed current investments are stated at bid price at the year-end date. Convertible loan notes are classified as loans and receivables and recorded at fair value.

2. ACCOUNTING POLICIES - continued

Investments - derivatives

Where the company invests in Contract for difference investments, the investments are not held as assets as they are never actually owned. Any gains and losses arising are recorded in the Profit and Loss Account less any commission, interest charges, dividend adjustments and fees.

Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

Trade debtors

Trade debtors are recognised and carried at the original invoice amount less an allowance for uncollectable amounts. An estimate of uncollectable amounts is made when collection of the full amount is no longer probable. Uncollectable amounts are written off to the Profit and Loss Account when identified.

Fair value estimation

The Company classifies financial assets using a fair value hierarchy that reflects the significance of the inputs used in making the related fair value measurements. The level in the fair value hierarchy within which a financial asset is classified is determined on the basis of the lowest level input that is significant to that asset's fair value measurement. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices in active markets;
- Level 2 - Inputs other than quoted prices that are observable, such as prices from market transactions; and
- Level 3 - One or more inputs that are not based on observable market data.

Financial liabilities

The Company's financial liabilities consist of trade and other creditors and other loans.

Financial liabilities are recognised when the Company becomes a party to the contractual arrangements of the instrument. Liabilities are recognised initially at their fair value, net of transaction costs, and subsequently measured at amortised cost less settlement payments, using the effective interest method, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest, unless it is not material.

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Where the contractual obligations of financial instruments, including share capital, are equivalent to a similar debt instrument, those instruments are classed as financial liabilities. Financial liabilities are classified as creditors in the Balance Sheet.

Where the contractual terms of issued shares do not have any terms meeting the definition of a financial liability then this is classified as an equity instrument.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the company's obligations are discharged, cancelled, or they expire.

Foreign currency translation

Foreign currency transactions are translated at the exchange rate prevailing at the dates of the transaction. Foreign currency monetary assets and liabilities are translated at year-end exchange rates and any exchange gains and losses are recorded in the Profit and Loss Account.

Borrowing costs

All borrowing costs are expensed to the Profit and Loss Account as incurred.

2. ACCOUNTING POLICIES - continued

Exceptional items

Exceptional items are those that the Directors consider are of unusual size or nature that they are required to be separately disclosed to allow the user of the financial statements to understand the underlying performance of the Company.

Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired. Where an indicator of impairment exists, the Company makes an estimate of recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount the asset is written down to its recoverable amount. Recoverable amount is the higher of fair value less costs to sell and value in use and is determined for an individual asset. If the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, the recoverable amount of the cash-generating unit to which the asset belongs is determined. Discount rates reflecting the asset specific risks and the time value of money are used for the value in use calculation.

Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events and it is likely that an outflow of resources embodying economic benefits will be required to settle the obligation and that amount can be reasonably estimated. Where the Company expects all or some of the obligation to be reimbursed, the reimbursement is recognised as a separate asset to the extent that it is virtually certain to be reimbursed. The expense relating to any provision is presented in the Profit and Loss Account net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the year-end date. If material, provisions are determined by discounting the expected future cashflows using rates that reflect current market assessments of the time value of money.

Leases

For finance leases, where the Company bears substantially all the risks and rewards related to ownership of the leased asset, the related asset is capitalised at the inception of the lease at the fair value of the leased asset or, if lower, the present value of the minimum lease payments. Finance costs are charged to the Profit and Loss Account over the period of the lease in accordance with the capital balance outstanding.

Operating leases, where the lessor retains substantially all the risks and rewards of ownership, are charged to the Profit and Loss Account on a straight line basis over the lease term. Lease incentives are spread over the term of the lease.

Long term incentive employee compensation

The Company operates a profit sharing scheme for the remuneration of its Directors and employees. Due to the long-term nature of this incentive scheme, the Company's future liabilities are contingent liabilities that are uncertain in their timing and amount and as such are excluded from the balance sheet of these financial statements.

Equity instruments

Equity instruments issued by the company are recorded as the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

Issued share capital

Ordinary shares are classified as equity.

Share premium

The share premium account represents the excess over nominal value of the fair value of consideration received for equity shares, net of the expenses of the share issue.

Capital redemption reserve

The capital redemption reserve represents share premium that has been redeemed by the Company.

2. ACCOUNTING POLICIES - continued

Other reserve

The other reserve represents equity-settled share-based employee expense until such share options are exercised.

Retained earnings

Retained earnings include all current and prior year results for the Company.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

Current corporate tax assets and liabilities comprise those obligations to fiscal authorities in the UK where the Company carries out its operations, based on the taxable profit for the year. They are calculated according to the tax rates and tax laws enacted or substantively enacted in the fiscal period. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. All changes to current tax liabilities are recognised as a component of tax expense in the Profit and Loss Account.

Deferred tax

Deferred corporate taxes are calculated using the liability method on temporary differences. This involves the comparison of the carrying amount of assets and liabilities in the financial statements with their respective tax bases. Deferred tax liabilities are provided for in full. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets and liabilities are calculated at tax rates that are expected to apply to their respective period of realisation, provided they are enacted or substantively enacted at the year-end date.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

Changes in deferred tax assets or liabilities are recognised as a component of tax expense in the Profit and Loss Account, except where they relate to items that are charged or credited directly to equity in which case the related deferred tax is also charged or credited directly to equity.

Dividends

Final equity dividends to the shareholders of Eurovestech Plc are recognised in the year that they are approved by shareholders. Interim equity dividends are recognised in the period that they are paid.

Dividends receivable are recognised when the Company's right to receive payment is established.

Use of key accounting estimates and judgements

Many of the amounts included in the financial statements involve the use of judgement and/or estimation. These judgements and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to prior experience, but actual results may differ from the amounts included in the financial statements. Information about such judgements and estimation is contained in the accounting policies and/or the notes to the financial statements and the key areas are summarised below:

Critical accounting assumptions and estimates

(a) The valuation of non-current investments. Valuation of non-current investments requires a number of judgements including assessing the appropriate valuation multiples based on the stage of development of the portfolio companies and relevant industry comparators. Should the valuation show a diminution of value, a decision as to whether an impairment occurred is carried out. A number of factors are involved and include the likelihood of prolonged reduction in value, the overall economic outlook and industry or sector specific factors.

Notes to the Financial Statements - continued
for the Year Ended 30 June 2019

2. **ACCOUNTING POLICIES - continued**

(b) Accounting for the value of the Executive Directors' long-term incentive requires judgement over the period of ownership of the related investments, expected overall profit on disposal and the effective rate of interest.

3. **TURNOVER**

The turnover and profit (2018 - loss) before taxation are attributable to the principal activities of the company.

An analysis of turnover by class of business is given below:

	30.6.19	30.6.18
	£	£
Consultancy	20,000	20,000
Other income	<u>52,677</u>	<u>-</u>
	<u><u>72,677</u></u>	<u><u>20,000</u></u>

An analysis of turnover by geographical market is given below:

	30.6.19	30.6.18
	£	£
United Kingdom	<u>72,677</u>	<u>20,000</u>
	<u><u>72,677</u></u>	<u><u>20,000</u></u>

4. **EMPLOYEES AND DIRECTORS**

	30.6.19	30.6.18
	£	£
Wages and salaries	282,266	296,764
Social security costs	36,229	40,428
Other pension costs	<u>4,326</u>	<u>3,118</u>
	<u><u>322,821</u></u>	<u><u>340,310</u></u>

The average number of employees during the year was as follows:

	30.6.19	30.6.18
Directors	3	3
Administration	<u>2</u>	<u>2</u>
	<u><u>5</u></u>	<u><u>5</u></u>
	30.6.19	30.6.18
	£	£
Directors' remuneration	<u>180,750</u>	<u>225,000</u>

Notes to the Financial Statements - continued
for the Year Ended 30 June 2019

5. **OPERATING PROFIT/(LOSS)**

The operating profit (2018 - operating loss) is stated after charging:

	30.6.19	30.6.18
	£	£
Other operating leases	881	1,966
Depreciation - owned assets	10,961	15,297
Auditors' remuneration	<u>20,000</u>	<u>20,000</u>

6. **INTEREST PAYABLE AND SIMILAR EXPENSES**

	30.6.19	30.6.18
	£	£
Interest payable	<u>143,710</u>	<u>62,282</u>

7. **TAX ON LOSS**

Analysis of the tax charge

No liability to UK corporation tax arose for the year ended 30 June 2019 nor for the year ended 30 June 2018.

Reconciliation of total tax charge included in profit and loss

The tax assessed for the year is lower than the standard rate of corporation tax in the UK. The difference is explained below:

	30.6.19	30.6.18
	£	£
Profit/(loss) before tax	<u>829,870</u>	<u>(211,298)</u>
Profit/(loss) multiplied by the standard rate of corporation tax in the UK of 19% (2018 - 19%)	157,675	(40,147)
Effects of:		
Expenses not deductible for tax purposes	11,269	353,929
Income not taxable for tax purposes	(259,221)	(579,194)
Tax losses	<u>90,277</u>	<u>265,412</u>
Total tax charge	<u>-</u>	<u>-</u>

Notes to the Financial Statements - continued
for the Year Ended 30 June 2019

At 30 June 2019	<u>31,695,341</u>	<u>634,736</u>	<u>4,465,826</u>	<u>100,000</u>	<u>36,895,903</u>

At 30 June 2019, the company's distributable reserves were £8,109,012 (2018: £8,147,462). All gains which remain unrealised at the balance sheet date are not distributable.

20. CONTINGENT LIABILITIES

In 2008, the Company entered into shareholder approved employee incentive arrangements with the Company's two Executive Directors. These incentive arrangements provide for each of the Executive Directors to receive 7.5 per cent of the net profits (after disposal costs) made by the Company in relation to its investments above a 5 per cent internal rate of return. Given the significant degree of estimation in respect of the calculation of the amount to be paid, the timing of its payment and the likelihood of losses on the investments the amount of obligation cannot be measured with sufficient reliability and no provision is therefore recognised.

21. CAPITAL COMMITMENTS

The Company had no capital commitments at 30 June 2019 (2018: £nil).

22. RELATED PARTY DISCLOSURES

During the year the Company charged ITWP Acquisitions Limited £20,000 (2018: £20,000) in fees for Non-Executive Directors' services. At 30 June 2019, £18,000 (2018: £6,000) was due from ITWP Acquisitions Limited, inclusive of vat. ITWP Acquisitions Limited is one of Eurovestech Plc's investee companies.

During the year the Company provided additional loan funding of €945,554 (£852,634) (2018: €457,249 (£409,452)) to Audionamix SA, charged transfer pricing of €59,259 (£52,657) (2018: €nil (£nil)) to Audionamix SA and charged interest of €629,163 (£555,723) (2018: €nil (£nil)) to Audionamix SA. The interest included the previous 2 years interest which had not been charged. At 30 June 2019, €2,096,612 (£1,875,232) (2018: €462,636 (£414,217)) was due from Audionamix SA. Audionamix SA is a Eurovestech Plc investee company.

At the Balance Sheet date, included within other debtors, is an amount owed by a non-executive director of £63,842 (2018: £63,842).

At the Balance Sheet date, included within debtors, is an amount owed by a director of £nil (2018: £335,489).

The Company has a profit sharing agreement with its Executive Directors. Refer to note 19 for further details.

There were no other related party transactions.

23. SUBSEQUENT EVENTS

There are no significant subsequent events.
