The financial statements have been prepared under the historical cost convention.

At the balance sheet date, the company had net liabilities. However, the directors have loaned funds to the company, and are committed to providing continued financial support. The directors therefore consider it appropriate to prepare the accounts on a going concern basis.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
