NOTES TO THE ABBREVIATED ACCOUNTS
for the year ended 31 December 2013

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The company's balance sheet shows an excess of liabilities over assets of £900, and net current liabilities of £1,121.

The company is dependent upon the continuing support of its director and other creditors to enable it to meet its day to day working capital requirements.

On this basis the financial statements have been prepared on the going concern basis. The financial statements do not include any adjustments that would result from the withdrawal of support of the creditors.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where a contract has only been partially completed at the balance sheet date turnover represents the value of the service provided to date based on a proportion of the total expected consideration at completion. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors due within one year.

Goodwill

Goodwill, being the amount paid in connection with the acquisition of a business in 2003, is being amortised evenly over its estimated useful life of ten years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 20% on cost
