The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 October 2016.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 October 2016 in accordance with Section 476 of the Companies Act 2006.

The director acknowledges his responsibilities for:

- (a) ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.
- (b)

The abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

The financial statements were approved by the director on 26 July 2017 and were signed by:

D J Halliwell - Director

The notes form part of these abbreviated accounts

**Notes to the Abbreviated Accounts  
For The Year Ended 31 October 2016**

1. **ACCOUNTING POLICIES**

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

**Turnover**

Turnover represents net invoiced sales of goods, excluding value added tax.

A sale is recognised when the goods have been despatched to clients, which is the point at which the risks and rewards of ownership pass to the customer and therefore revenue recognised.

The company's policy of revenue recognition is to recognise a sale when the contractual obligations to the customer have been fulfilled.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and fittings	- 25% on cost
Motor vehicles	- 20% on reducing balance
Computer equipment	- 33% on cost

The company carries tangible fixed assets in the balance sheet using the depreciated historic cost method.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Stocks are valued at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, freight, irrecoverable taxes and costs of conversion and other directly attributable costs which are incurred by the entity in bringing the stock to its present location and condition. The cost methodology employed by the entity is the first-in first-out method.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

**Financial instruments**

Financial Instruments are classified and accounted for according to the substance of the transaction as either a financial asset, liability or equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the company after all liabilities have been deducted.
