STRATEGIC REPORT

BUSINESS REVIEW AND PRINCIPAL ACTIVITIES

Paragon Mortgages (No.16) PLC ('the Company') is a wholly owned subsidiary of The Paragon Group of Companies PLC ('the Group') and was set up to provide finance for its mortgage loan assets, by issuing mortgage backed floating rate loan notes and using the proceeds to purchase mortgage loans from other group companies.

On 10 November 2012 the Company issued floating rate notes and used the proceeds to purchase mortgage loans from Paragon Mortgages (2010) Limited, a fellow group company. During the year the Company operated in the United Kingdom, the principal activity of the Company was the provision of first mortgage loans. The Company sold its mortgage loans to another group company in July 2014 and used the proceeds to repay the outstanding asset backed loan notes in October 2014. The directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year. The Company continues to manage its residual assets.

As shown in the Company's profit and loss account on page 5, the Company's net interest increased from an expense of £69,000 to £nil. This was due to the asset backed loan notes being repaid in October 2014, with no interest charged being incurred in the current year. The result after tax has fallen from a result of £nil to a loss of £1,000.

The balance sheet on page 6 of the Financial Statements shows the Company's financial position at the year end. Net assets have decreased due to the loss of £1,000 during the year. Details of amounts owed from other group companies is shown in note 9.

No interim dividend was paid during the year (2015: £nil). No final dividend is proposed (2015: £nil).

The Group manages its operations on a centralised basis. For this reason, the Company's directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group's mortgage lending operation, which includes the Company, is discussed in the Group's Annual Report, which does not form part of this Report.

PRINCIPAL RISKS AND UNCERTAINTIES

The Company's primary financial assets and liabilities are with other group companies; therefore the directors do not consider that the Company is exposed to any significant cash flow, credit or liquidity risks.

After considering the above, the directors have a reasonable expectation that the Company will have adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the Financial Statements.

ENVIRONMENT

The Group recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by the Group's activities. The Company operates in accordance with group policies, which are described in the Group's Annual Report, which does not form part of this Report.

EMPLOYEES

The Company has no employees. All operational services are provided by employees of the Group. The Group's employment policies are described in its Annual Report, which does not form part of this Report.

- make judgments and estimates that are reasonable and prudent;

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company, for taking reasonable steps for the prevention and detection of fraud and other irregularities and for the preparation of a strategic report and directors' report which comply with the applicable requirements of the Companies Act 2006.

13. BORROWINGS

The mortgage backed floating rate notes were secured over a portfolio comprising variable rate mortgage loans secured by first charges over residential properties in the United Kingdom. The notes were subject to mandatory redemption in part on each interest payment date in an amount equal to the principal received or recovered in respect of the mortgage. As a result of this structure, cash received in respect of loan assets is not immediately available for distribution. At 30 September 2016, the amount of restricted cash and investments held within the Company was £nil (2015: £nil). The maturity date of the notes matches the maturity date of the underlying assets. It is likely that a substantial proportion of these notes will be repaid within five years.

The Company has the option to repay all of the notes at an earlier date (the 'call date'), or at any interest payment date thereafter, at the outstanding principal amount.

Interest is payable at a fixed margin above:

- the London Interbank Offered Rate ('LIBOR') on notes denominated in sterling;

All payments in respect of the notes are required to be made in the currency in which they are denominated.

Notes in issue at 30 September 2016 and 30 September 2015 were:

Notes	Maturity date	Call date / Turbo date	Principal outstanding		Note margin	
			2016	2015	2016	2015
			£m	£m		
'A'	Apr 2039	Oct 2014	-	-	-	2.75%
'Z'	Apr 2039	Oct 2014	-	-	-	3.25%

All of the above notes were listed on the main market of the London Stock Exchange.

If the issuer elects not to call and repay the Class A and Z on or after the Call Date / Turbo date, the excess revenue that otherwise would have been paid to the administrator, such as interest on the subordinated loan, is used to repay the Class 'A' Noteholders.

There is a subordinated loan facility under which an amount was drawn down by the Company to establish the first loss fund, which is repayable to Paragon Finance PLC on the earlier of the last interest payment date in April 2039 or the first day on which there are no notes outstanding, except that on any Interest Payment Date sums borrowed will be repaid to the extent of any amount released from the first loss fund. Interest is payable at the rate of 4% above the London Interbank Offered Rate for three month sterling deposits.

There are no amounts of committed but undrawn facilities at 30 September 2016 and September 2015.
