The notes on pages 3 to 5 form an integral part of these financial statements.

**A G Farmer Limited**  
**(Registration number: 05199175)**  
**Abbreviated Balance Sheet at 30 September 2011**  
*..... continued*

For the year ending 30 September 2011 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the director on 27 June 2012

.....  
Mr A G Farmer  
Director

The notes on pages 3 to 5 form an integral part of these financial statements.

**1 Accounting policies**

**Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Going concern**

The company meets its day to day working capital requirements through the continued financial support of its director. The director therefore considers it appropriate to prepare financial statements on a going concern basis. The financial statements do not include any adjustments that would result in the withdrawal of financial support by the company's director.

**Turnover**

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

**Goodwill**

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

**Amortisation**

Amortisation is provided on intangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows:

<b>Asset class</b>	<b>Amortisation method and rate</b>
Goodwill	Equal annual installments over 10 years

**Depreciation**

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

<b>Asset class</b>	<b>Depreciation method and rate</b>
Plant and machinery	15% reducing balance and 25% reducing balance
Fixtures and fittings	25% reducing balance / 3 years straightline

Motor vehicles

25% reducing balance

**Stock**

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

**Hire purchase and leasing**

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

**A G Farmer Limited**  
**Notes to the Abbreviated Accounts for the Year Ended 30 September 2011**  
..... *continued*

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract and represent a constant proportion of the balance of capital repayments outstanding.

**Financial instruments**

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.

**2 Fixed assets**
