NOTES TO THE ABBREVIATED ACCOUNTS  
FOR THE YEAR ENDED 30 JUNE 2011

1 ACCOUNTING POLICIES

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

**Turnover**

Turnover is the total amount, excluding value added tax, receivable by the company for goods sold and services provided

**Depreciation**

The cost of tangible fixed assets is written off by equal instalments over their expected useful lives as follows

	Per annum %
Tractors, combines and motor vehicles	20
Machinery and implements	15

Freehold land is not depreciated. Freehold property would normally be depreciated at a rate of 2% per annum. However, no depreciation is provided as the company has a policy and practice of regular maintenance and repair, such that the asset is kept to its previously assessed standard of performance. Accordingly, the director considers that the life of the freehold property is so long and the residual value so high that both depreciation and accumulated depreciation are insignificant. The carrying values of tangible fixed assets are reviewed for impairment each period to consider if events or changes in circumstances indicate the carrying values may not be recoverable.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

**Investments**

Fixed asset investments are stated at cost less provision for any permanent diminution in value
