Notes to the Abbreviated Accounts

for the year ended 30 April 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Going concern basis of accounting

At the balance sheet date the Company's liabilities exceeded its assets. The Company has received assurance from its Director that he will continue to give financial support to the Company for twelve months from the date of signing these financial statements.

On this basis, the Director considers it appropriate to prepare the accounts on a going concern basis. However, should the financial support mentioned above not be forthcoming, the going concern basis used in preparing the Company's accounts may be invalid and adjustments would have to be made to reduce the value of assets to their realisable amount and to provide for any further liabilities which might arise. The accounts do not include any adjustment to the Company's assets or liabilities that might be necessary should this basis not continue to be appropriate.

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures, fittings and equipment	25% per annum on reducing balance
Motor vehicles	25% per annum on reducing balance

Stocks

Stock is valued at the lower of cost and net realisable value.

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.
