NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 AUGUST 2001

1. STATEMENT OF ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention and with the Financial Reporting Standard for Smaller Entities (effective March 2000).

Turnover

Turnover represents the total invoice value, excluding value added tax, of goods sold and services rendered during the year.

Depreciation of tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its useful life:

Plant and machinery	10% on cost
Office furniture and fittings	15% reducing balance
Motor vehicles	20% reducing balance

Stocks

Stocks are stated at the lower of cost and net realisable value.

Net realisable value is based on estimated selling price less further costs to completion and disposal.

Deferred taxation

Deferred taxation is provided using the liability method on all timing differences to the extent that they are expected to reverse in the future without being replaced, calculated at the rate at which it is anticipated the timing differences will reverse.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and are depreciated over their estimated useful lives. The interest element of the rental obligations is charged to the profit and loss account over the period of the lease.

Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Pension costs

The company operates a money purchase (defined contribution) pension scheme. Contributions payable to this scheme are charged to the profit and loss account in the period to which they relate. These contributions are invested separately from the company's assets.
