Notes to the abbreviated financial statements for the year ended 28 February 2006

1. Accounting policies

The principal accounting policies adopted in the presentation of the financial statements are set out below and have remained unchanged from the previous period, and also have been consistently applied within the same accounts.

1.1. Basis of preparation of financial statements

The full financial statements were prepared under the historical cost convention and the Financial Reporting Standard for Smaller Entities (effective January 2005).

1.2. Turnover

Turnover represents the total value, excluding value added tax, of goods and services provided during the year.

1.3. Tangible fixed assets and depreciation

Depreciation has been computed to write off the cost of each asset over its expected useful life using the following rates:

Plant and machinery	-	33% on cost per annum
Fixtures, fittings & equipment	-	25% on net book value per annum

1.4. Leasing

Rentals payable under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

1.5. Stocks

Stocks have been valued at the lower of cost and net realisable value.

1.6. Deferred taxation

Provision is made in full for all taxation deferred in respect of timing differences between the treatment of certain items for accounts and tax purposes, that have originated but not reversed by the balance sheet date. No provision is made for taxation on permanent differences. Deferred tax assets are recognised to the extent that it is more likely than not that they will be recovered.

Deferred tax is not discounted to reflect the present value of future cashflows.
