NOTES TO THE ABBREVIATED ACCOUNTS 31ST MARCH 1999

1. Accounting Policies

These accounts have been prepared on the historical cost basis and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 1999)

Turnover

Turnover represents net invoiced sales of goods, excluding V.A.T.

Depreciation

Depreciation of tangible fixed assets is provided at the following annual rates in order to write off each asset over its estimated useful life:-

Office Equipment	20% on reducing balance
Fixtures and Fittings	15% on reducing balance
Motor Vehicles	25% on reducing balance
Computer Equipment	33% on reducing balance

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the Balance Sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss over the relevant period. The capital element of the future payments is treated as a liability.

Stocks and work in progress are valued at the lower of cost and net realisable value, after Making allowance for obsolete and slow moving items.

Deferred taxation.

Provision is made at appropriate rates for taxation deferred in respect of all material timing differences only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the foreseeable future. The Directors consider that no provision is required.
