A & D WHEAL LOCATION SERVICES LIMITED**NOTES TO THE FINANCIAL STATEMENTS****YEAR ENDED 31st JULY 2011**

1 ACCOUNTING POLICIES**Basis of accounting**

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Basis of preparation

The company made a loss before tax of £24,448 for the year and had net assets of £50,623 including cash at bank of £19,491 at the balance sheet date with no bank borrowings. The company finances its operations through supplier credit and loans due to the director.

As a consequence with these financial resources the director believes that the company is well placed to manage its business risks successfully despite the current economic outlook.

After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the director continues to adopt the going concern basis in preparing the financial statements.

Turnover

Turnover is the total amount receivable by the company for goods supplied and services provided, excluding Value Added Tax and trade discounts.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant and machinery	-	20% reducing balance
Fixtures and fittings	-	20% reducing balance
Motor vehicles	-	25% reducing balance

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
