NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Exemption from preparing a cash flow statement

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover

Turnover comprises the value of sales of goods sold (excluding VAT and trade discounts) and is recognised when the significant risk and rewards of ownership of the goods have passed to the buyer, usually on receipt of the goods.

Goodwill

Goodwill is included at cost and amortised in equal and annual instalments over a period of 20 years, which is its estimated useful economic life. The carrying value of goodwill is reviewed for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - straight line - 33%

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Stocks

Cost incurred in bringing each product to its present location and condition is based on standard cost, set by the US parent undertaking on a first-in, first-out basis, including transport.

Net realisable value is based on estimated normal selling price, less further costs expected to be incurred to completion and disposal. Provision is made for obsolete, slow moving or defective items where appropriate.

NOTES TO THE ABBREVIATED ACCOUNTS - continued FOR THE YEAR ENDED 31 MARCH 2014

1. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Share based payments

The equity instruments are granted to the employees of the Company by its ultimate parent, Prestige Brands Inc. The share based compensation is accounted for as equity-settled in the consolidated financial statements of the parent, therefore the Company is required to record an expense for such compensation in accordance with the provision of the Financial Reporting Standard for Smaller Entities (effective April 2008) relating to 'Share based payments', with a corresponding increase recognised in reserves as a contribution from the parent.

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted and is recognised as an expense over the vesting period, which ends on the date on which the relevant employees became fully entitled to the award. The fair value is determined using a Black-Scholes option pricing model.
