SCL ELECTIONS LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD ENDED 31 DECEMBER 2013

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Going concern

The Company has considerable financial resources together with significant contracts already in place. As a consequence, the Director believes that the Company is well placed to manage its business risks successfully.

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of services supplied during the period, exclusive of Value Added Tax and trade discounts.

Turnover consists of long term contracts whereby revenue is recognised based on the percentage completed during the period.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Fixtures and fittings	-	10 years straight line
Office equipment	-	5 years straight line

1.5 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

1.6 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the Profit and loss account.

1.7 Long-term contracts

Profit on long-term contracts is taken as the work is carried out. The profit included is calculated on a prudent basis to reflect the proportion of the work carried out at the year end, by recording turnover and related costs as contract activity progresses. Turnover is calculated as that proportion of total contract value which costs incurred to date bear to total expected costs for that contract. Full provision is made for losses on all contracts in the year in which they are first foreseen.
