Directors' report

The directors present their directors' report and the audited financial statements for the year ended 31 December 2014.

Principal activity

The principal activity of Barchester Assisted Living Properties (Edgbaston) Limited ("the Company") is the sale of sheltered housing to the frail and elderly on long leases. The company refer to the assets on long leases as Close Care Units (CCU). Care and property services are provided by other group companies.

Business review

The results for the year are set out in the profit and loss account on page 7. The directors are satisfied with the Company's result.

The Company operates under the Barchester Healthcare Limited Group brand ("Barchester"). Barchester commands a leading position in the UK long term care sector and is the UK's fourth largest provider. The business provides in excess of 12,800 registered beds, spread across its portfolio of 198 high quality homes with a national footprint across the UK, the largest proportion located within London and the South East and the remainder evenly spread through the UK. The Group has a significant number of private pay residents.

The key performance measures that the Board use to monitor Barchester's progress against its objectives are:

- Quality of care, the health and wellbeing of our residents;
- Occupancy rates;
- Fee levels;
- EBITDA and EBITDA per bed;
- Margin; and
- Staff and agency cost.

Barchester's strategy is one of continued growth through extension of existing facilities, acquisitions of nursing homes of a suitable quality and development of newly built care homes. Barchester is especially focused on the private pay market and also on residents with specialist care needs.

The directors have a reasonable expectation that the Grove Limited Group ("Group") and company has adequate resources to continue in operation existence for the foreseeable future. The directors therefore believe that it is appropriate to prepare the financial statements on a going concern basis. Please refer to note 1 for further detail.

Dividends

The directors do not recommend the payment of a dividend (2013: *£nil*).

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

The Company is exempt from the requirement of FRS 1 (revised 1996) to prepare a cash flow statement as it is a wholly owned subsidiary undertaking of Grove Limited and its cash flows are included within the consolidated cash flow statement of that company.

As the Company is a wholly owned subsidiary of Grove Limited the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the Group. The consolidated financial statements of Grove Limited, within which the Company is included, can be obtained from the address in note 12.

Going concern

The company has net assets together with long term support from its ultimate Parent Company. As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis in preparing the annual financial statements.

Group companies have confirmed that amounts owed to group undertakings will not be demanded within the year.

Tangible assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Freehold buildings - 25 years

No depreciation is provided on freehold land.

Turnover

Turnover relates to the income received from the sale of close care units, and arises entirely in the United Kingdom.

Where a lease is granted in respect of property, revenue is recognised where the risks and rewards of ownership are transferred to the lessee and when recovery is reasonably certain.

Stocks

Stocks are stated at the lower of cost and net realisable value.

Close care units are classified as assets held for resale and are stated at the lower of cost and net realisable value. Costs are expenditure incurred in acquiring the close care units and bringing them to their existing condition. Net realisable value is the estimated selling price less the estimated costs of completion and selling expenses.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Auditor's remuneration

The remuneration of the auditor in the current year was borne by another Group Company. An estimate of the amount related to this company is £4,000 (2013: £4,000). The amount above is management's best estimate of the proportion relating to this company.

3 Remuneration of directors

The Company had no employees other than directors (2013: nil). The directors received remuneration for services to Barchester Healthcare Limited of which Barchester Assisted Living Properties (Edgbaston) Limited is a subsidiary undertaking, however, the proportion attributable to their services to Barchester Assisted Living Properties (Edgbaston) Limited is not separately identifiable.
