The financial statements have been prepared in accordance with applicable accounting standards under the historical cost convention as modified by the revaluation of investment properties and in accordance with the *Financial Reporting Standard for Smaller Entities* (effective June 2002).

Turnover

Turnover consists of the invoiced value (excluding VAT) for goods supplied to third parties.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred or accelerated because of timing differences between the treatment of certain items for accounting and taxation purposes.

Provision for deferred taxation is made under the liability method.

Tangible fixed assets and depreciation

Depreciation is provided evenly on the cost of tangible fixed assets, to write them down to their estimated residual values over their expected useful lives. No depreciation is provided on freehold land. Where appropriate provision is made for any impairment in the depreciated value of fixed assets. The principal annual rates used for other assets are:

Freehold buildings	2% per annum
Plant and machinery	15% per annum
Fixtures and fittings	25% per annum
Motor vehicles	25% per annum

Investment properties are accounted in accordance with SSAP 19. The properties are valued annually and the surplus or deficit transferred to the investment property revaluation reserve. Any deficit below original cost is charged to the profit and loss account.

Stocks

Stocks and work in progress are valued at the lower of cost and estimated net realisable value. The cost of work in progress and finished goods comprises materials, direct labour and attributable production overheads. Net realisable value is based on the estimated sales price after allowing for all further costs of completion and disposal.
