CROSSGATE BUILDERS LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2014

1. Accounting policies

a. Basis of preparation of accounts

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

b. Turnover

Turnover comprises the invoiced value of goods and services supplied by the company excluding value added tax.

c. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation.

Depreciation is provided from the date of acquisition at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:-

Fixtures, Fittings and Office Equipment	20% reducing balance basis
Motor Vehicle	25% reducing balance basis

d. Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future years. The finance element of the rental payment is charged to the profit and loss accounts so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

e. Operating leases

Rental applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account as incurred.

f. Stock and work in progress

Stock and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks. Costs represents materials and all direct costs and an appropriate proportion of fixed and variable overheads.

g. Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the years in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
