NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 AUGUST 2008

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

The Company meets its day to day working capital requirements through an overdraft facility which is repayable on demand together with support from the Directors.

Based upon the Directors' knowledge of the likely future financial requirements of the business, they consider that the Company will be able to continue operating within the banking facility that is currently agreed. The Directors' are also confident that they will be able to secure adequate finance from the Company's bankers when the current facility falls due for renewal.

On this basis, the Directors' consider it appropriate to prepare the Financial Statements on the going concern basis. The Financial Statements, therefore, do not include any adjustments that would result from a withdrawal or non-renewal of the overdraft facility by the Company's bankers.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Freehold land and buildings	1% straight line
Plant and machinery	10% reducing balance
Computer equipment	33.3% reducing balance
Motor vehicles	25% reducing balance

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.6 Stock

Stock is valued at the lower of cost and net realisable value.

1.7 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

Grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.
