For the year ended 31 December 2013 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies and its members have not required the company to have an audit of its financial statements for the year in question in accordance with section 476.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These abbreviated accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The abbreviated accounts on pages 1 to 4 were approved by the Board of Directors and authorised for issue on 26/12/14 and are signed on their behalf by:

TCC Holdings Limited

UNAUDITED ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) subject to the departures referred to below.

CONSOLIDATION

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The financial statements present the results of the parent company only and do not show the results of the group.

TURNOVER

Turnover represents the total invoice value, excluding value added tax, of rent receivable.

TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment. Freehold land and buildings are reviewed for impairment, in accordance with FRS11, at the end of each reporting period. The directors believe that any depreciation would be immaterial as the estimated residual value of the freehold land and buildings is not materially different from the carrying value of the asset.

INVESTMENTS

Long term investments are classified as fixed assets. Short term investments are classified as current assets. Fixed asset investments are stated at cost in the company balance sheet. Provision is made for any impairment in the value of fixed asset investments.

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

FINANCIAL INSTRUMENTS

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
