**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS**  
**for the Year Ended 30th September 2000**

**1. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

The accounts have been prepared on the going concern basis because the company's holding company has undertaken to continue its support. The company is also dependant upon the continued support of its financiers. The valuation of the company's land and buildings is dependent upon the level and quality of its tenants. One of the company's properties has recently been refurbished and is currently being marketed.

**Accounting convention**

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

**Turnover**

Turnover represents net invoiced sales of services, excluding value added tax.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery etc	- 15% on reducing balance and 25% on reducing balance
-------------------------	--

**Deferred taxation**

Provision is made at current rates for taxation deferred in respect of all material timing differences except to the extent that, in the opinion of the director, there is reasonable probability that the liability will not arise in the foreseeable future.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

**Grants received**

Grants are credited to profit and loss account when the company no longer becomes liable to make repayment in respect of them.
