Notes to the Abbreviated Accounts
for the Year Ended 31 DECEMBER 2011

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents rental income and charges receivable, excluding value added tax

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

- Freehold property - Revalued yearly on an open market basis
- Computer equipment - 25% on cost

Investment properties are revalued annually at their open market value in accordance with UK GAAP. The surplus or deficit on revaluation is transferred to a revaluation reserve except where the deficit reduces the property below its historical cost, in which case it is taken to the profit and loss accounts

No depreciation is provided on investment properties which is a departure from the requirements of Companies Act 2006. In the opinion of the directors these properties are held primarily for their investment potential and so their current value is of more significance than any measure of consumption and to depreciate them would not give true and fair view. The provisions of UK GAAP in respect of investment properties have therefore been adopted in order to give a true and fair view. If this departure from the act had not been made, the profit for the year would have been reduced by depreciation

However, the amount of depreciation can not reasonably be quantified and the amount which might otherwise have been shown can not be separately identified or quantified

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date
