Taxation

Current tax on ordinary activities represents the amount received or paid for group relief in respect of tax losses surrendered or claimed in the current year. All current tax liabilities have been assumed by Smiths Group plc, the ultimate parent company.

Deferred tax is provided in full using the balance sheet liability method. A deferred tax asset is recognised where it is probable that future taxable income will be sufficient to utilise the available relief. Tax is charged or credited to the income statement except when it relates to items charged or credited directly to equity, in which case the tax is also dealt with in equity.
