The members are responsible for preparing the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Under company law, as applied to LLPs, the members must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the LLP and of the profit or loss of the LLP for that period. In preparing these financial statements, the members are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;

The Capital Requirements Directive (Basel II) came into force on 1st January 2007 and introduced rules requiring the Firm to assess the adequacy of its capital resources in light of the risks they faced by its business in order to ensure the continued protection of clients and underlying investors.

If the Firm deems a certain disclosure to be immaterial, it may be omitted from this statement.

- **Confidentiality**

Information, the sharing of which with the public would undermine its competitive position, will be deemed to be proprietary information. Such proprietary information may include information on products or systems which, if shared with competitors, would render the Firm's investments therein less valuable. Further, the Firm must regard information as confidential if there are obligations to customers or other counterparty relationships binding the Firm to confidentiality. In the event that any such information is omitted, the Firm will disclose that fact and explain the grounds on which it has been decided that it should be excluded from the disclosures.

FCA Pillar 3 Disclosures

for the year ended 31 March 2015

Bainbridge Partners LLP introduction

Bainbridge Partners LLP is an investment management firm. The Firm is a limited liability partnership incorporated in the UK, and is authorised and regulated by the Financial Conduct Authority. The Firm is categorised under the BIPRU section of the FCA's Handbook as a "BIPRU €50k limited licence" firm.

The Firm advises on a range of fund of hedge fund products, quantitative trading strategies and client accounts. It does not hold client money and consequently the principal protection afforded to clients of the Firm is derived from the third party client money arrangements.

Risk Management

The Firm is governed by its Partners who determine its business strategy and risk appetite. They are also responsible for establishing and maintaining the Firm's governance arrangements along with designing and implementing a risk management framework that recognises the risks that the business faces.

The Partners also determine how the risk the business faces may be mitigated and assess on an ongoing basis the arrangements to manage those risks. The Partners meet on a regular basis with senior staff and discuss current projections for profitability and cash flow, along with the regulatory capital management, business planning and risk management. The Partners manage the Firm's risks business through a framework of policy and procedures having regard to relevant laws, standards, principles and rules (including FCA principles and rules) with the aim to operate a defined and transparent risk management framework.

The Partners have identified that operational and business risk are the main areas of risk to which the Firm is exposed. During the period, the Firm considered its market and credit risk to being limited.

On an annual basis, the Partners formally review their risks, controls and other risk mitigation arrangements and assess their effectiveness. Where the Partners identify material risks, they consider the financial impact of these risks as part of our business planning and capital management and conclude whether the amount of regulatory capital is adequate.

Business Risk

The main risk the Firm faces is an event leading to a significant fall in the level of assets under management. The Firm's revenue is reliant on the performance of the existing funds and its ability to launch new funds and obtain new mandates. As such, the risk posed to the Firm relates to underperformance of the current products due to adverse market conditions, causing the risk of redemptions from funds managed by the Firm, resulting in a decline in revenue. In the fund of hedge funds product range that Bainbridge advises on, Bainbridge will minimise its risk of underperformance through holding a diversified portfolio of hedge funds invested in. Managers will be selected because of their ability to generate alpha (especially relative to the category of hedge funds they belong to). Bainbridge is very conscious of the liquidity and volatility biases that each addition to the portfolio can create, and monitors those biases closely. In the event of significant falls in revenues the Partners are confident that with the existing high levels of capital held by it, the Firm should continue to cover all the expenses of the business. Through diversification of its product offering, Bainbridge looks to minimise any concentration risk arising from revenues by diversifying its product base.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems, or resulting from external events. The Firm places strong reliance on the operational procedures and controls that it has in place in order to mitigate risk and seeks to ensure that all personnel are aware of their responsibilities in this respect.

The Firm has identified a number of key operational risks. These relate to the outsourcing of investment accounting, transfer agency and various middle/ back office functions. Appropriate policies are in place to mitigate against these risks, including undertaking both onsite and desk based monitoring and the ongoing review of risk indicators, errors and incidents.

FCA Pillar 3 Disclosures
for the year ended 31 March 2015

The risk of loss of key investment staff is mitigated by the cross training of staff and extended notice periods for key personnel.

Credit Risk

Credit risk is the risk that a party will default on a financial agreement. The Firm is exposed to credit risk as follows:

- Fund management and performance fees due from unregulated collective investment schemes ('USIC')
- UK authorised banks in relations to deposits held with them

The risks are mitigated by:

- Performing credit checks and completing due diligence checks at the outset of entering into material contracts;
- Periodic monitoring of the financial strength of the credit institution with whom the Firm maintains its bank accounts;
- Contractual arrangements in relation to the payment of management fees and monitoring payments against agreed payment schedules, with management fees being drawn monthly and performance fees drawn quarterly as applicable.

Market Risk

The Firm takes no market risk other than foreign exchange risk in respect of its accounts receivable and cash balances held in non GBP currencies.

The risk is mitigated by keeping the size of the debtor balance under regular review.

Cash balances are maintained in GBP, USD and EUR. The EUR and USD accounts are used effectively for receiving EUR and USD denominated fees and managing the FX transactions into our GBP account.

Regulatory Capital

Bainbridge Partners LLP is a Limited Liability Partnership and its capital arrangements are established in its Partnership agreement. As at 31 March 2015 the Firm held regulatory capital resources of £630,000.

FCA Pillar 3 Disclosures
for the year ended 31 March 2015

Pillar 1

The Firm is a limited licence firm, and as such its capital requirements are the greater of:

- Its base capital requirement of €50,000;
- The sum of its market and credit risk requirements; or
- Its fixed overhead requirement ("FOR").

At 31 March 2015 the Firm's Pillar 1 requirement was £544,958. This has been determined with reference to the Firm's FOR and calculated in accordance with the FCA's General Prudential Sourcebook ("GENPRU"). The requirement is based on the FOR since at all times this exceeds the total of the credit and market risk requirements it faces and also exceeds its base capital requirement of €50,000.

The FOR is based on annual expenses net of variable costs deducted, which include discretionary bonuses paid to staff, allowable commission and fees and other variable expenditure. The Firm monitors its expenditure on a monthly basis and takes into account any material fluctuations in order to determine whether the FOR remains appropriate to the size and nature of the business or whether any adjustment needs to be made intra-year. This is monitored by the CFO and reported to the Partners on a periodic basis.

Pillar 2

Satisfaction of capital requirements

The Firm's ICAAP (Pillar 2) process has identified capital to be held over and above the Pillar 1 requirement. The additional capital resources requirement arising from the firm's cost to close analysis and therefore considered adequate to continue to finance the Firm over the next year. The Firm Tier 1 Capital increased to £630,000 during the fiscal year. No additional capital injections are considered necessary and the Firm expects to continue to be profitable.

Tier 3 Capital	0
Total Capital Resources	630

FCA Pillar 3 Disclosures
for the year ended 31 March 2015

Pillar 3

Remuneration Policy

The FCA has amended the Prudential Sourcebook for Banks, Building Societies and Investment Firms (BIPRU), and specifically BIPRU 11, to now include a requirement for disclosure of the Firm's approach to linking remuneration to risk.

The Firm feels that its Remuneration Policy appropriately addresses potential conflicts of interest and the Firm's authorised persons are not rewarded for taking inappropriate levels of risk. Under the Remuneration Code, the Firm is classified as a Level Three Firm, which allows the Firm to dis-apply many of the technical requirements of the Code and proportionately apply the Code's rules and principles in establishing the Firm's policy. In formalising the Remuneration Policy, the Firm relied on established systems and controls already in use. Remuneration shall be based on competitive market-based wages that fairly compensate employees in view of skills provided, work performed and responsibility undertaken. Overall remuneration will also include an annual incentive compensation reflecting individual performance and responsibility, both short-term and long-term, as well as the firm's overall performance.

The Remuneration Policy has been agreed by the Board and will be reviewed annually in line with the Remuneration Code procedures. Our disclosure is made in accordance with our size, internal organisation and the nature, scope and complexity of our activities.

The Aggregate Remuneration paid to Bainbridge Partners LLP Code Staff for the year ended 31st March 2015 was £359,384.
