Principal accounting policies 31 October 2011

Basis of accounting

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Cash flow

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard 1 'Cash flow statements'

Turnover

Turnover consists of rent of commercial properties Turnover excludes value added taxation

Land and buildings

Land and buildings will be revalued periodically and the aggregate surplus will be transferred to a property revaluation reserve No depreciation is provided in respect of land and buildings

Although this accounting policy is in accordance with the Financial Reporting Standards for Smaller Entities (effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated In the opinion of the directors, compliance with the standard is necessary for the financial statements to give a true and fair view

Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified The effect of this departure given an economic life of 50 years is that depreciation of £28,000 (2010 - £28,000) has not been charged to the profit and loss account
