

I rounded this number down. Manu rounded it up.  
**What place value could I have rounded it to?**  
**What about Manu?**

I rounded **up** from the **thousands place** and the **tens place**.

25,000 ↑

24,640 ↑

2 4, 6 3 9

20,000 ↓

24,600 ↓

I rounded **down** from the **ten-thousands place** and the **hundreds place**.

Figure out a number that should be rounded up for two places and rounded down for one.
