and Assessments

# How to Make the Most of EducationCity Assessments

At EducationCity, we understand that one size doesn't fit all, whether it's in teaching, learning or even assessment. That's why our new Assessments check learning formatively and summatively. We offer unit assessments within maths too! All our assessments are curriculum-aligned and self-marking, enabling you to spend more time where it matters.

Let's see how you could use our Assessments in your classroom:

# Back to School

## Students have returned from a long break, let's find out what they've retained!

Short, fixed, formative assessments in reading and maths (Years 2-6) give you the snapshot you're looking for. All students are asked the same questions, so a true comparison is possible, and results can be used to inform teaching plans moving forward!

Question 1 of 15

What is the **title** of this text?

**Stig's Visit to the Dentist**

Stig lay back anxiously in the chair. He fearfully looked up at the dentist's large face and could see his own in the dentist's shiny glasses. Stig was scared – no, terrified. This was his first visit and he didn't know exactly what would happen. He was tipped right back on the chair but didn't feel relaxed at all. The dentist then

Year 5 Formative Reading Assessment – Search #41697

# A new student has joined, let's benchmark so you can offer immediate support.

Fixed-form, formative assessments will really help here. Assess key areas like maths, reading, spelling, grammar and punctuation. All the information you may need will be at your fingertips to help fill any knowledge gaps discovered.

# Let's check short-term understanding of key concepts...

You've introduced new concepts with our Topic Tools and Learn Screens, students are practising newly acquired skills via our Activities, so it makes sense to check your students' understanding with our unit assessments too. Short, fixed assessments of 15 questions will give you an idea of students' understanding and where (if needed) reteaching is required.

Question 1 of 15 19:57

Sten cuts a cake into 4 pieces. He eats one piece. What fraction of the cake is left?

$$\frac{\quad}{4}$$

0 1 2 3 4 5 6 7 8 9

Year 3 Fractions Unit Assessment - Search #41658

# It's time for your weekly spelling test!

Spelling assessments provide 20 randomly generated questions from the year's word bank. Questions can be automatically marked for you, or if you prefer, your students can peer review each other's work!

- Search #41716

# It's that time again, end-of-year assessments...

Summative assessments in reading, maths and science will help during this crucial time of year. In reading and maths, the assessments are fixed form, giving students an experience similar to that of a formal exam, a great lesson starter or plenary to familiarise students with exam questions, and how to approach them!

Question 4 of 10 19:36

Why does it tell you to 'tear along the edges of the paper'?

How to make a treasure map

You need:

- 'to make your map look old'
- 'to make the paper flat'
- 'to make the map turn brown'

Year 2 Summative Reading Assessment - Search #41702

You'll also find many assessments provide scaffolded explanations for incorrect answers or generate individualised Revision Journals to help students fill their knowledge gaps with guided reinforcement and practice opportunities. The best part? It's all done for you!
