

IBD UK

Strategy
Partnership
Quality Improvement

Share your experience of IBD treatment and care

Join in the first UK-wide patient survey since before the COVID-19 pandemic and help your local NHS service give you the best possible care. Everyone with Inflammatory Bowel Disease should receive safe, consistent, high-quality, personalised care, whatever their age and wherever they live in the UK.

We need everyone with IBD in the UK to have their say to establish the first comprehensive picture of IBD treatment and care since 2019.

Take the IBD Patient Survey online at www.ibduk.org.uk/patient-survey
