

Sampling:

This dataset contains data broken down by the LAEMS analysis categories for sampling. The 2016/17 dataset had an additional category for 'Analysis type - Unclassified' which included samples where an LA was unable to identify the analysis type from information on UKFSS

- (1) This LA was unable to identify the category for all the sample analyses - these samples have been added to Analyses type - other.
- (2) Only deal with food hygiene
- (3) Only deal with food standards
- (4) This LA's sample data return was amended in November 2018.
