

Rotterdam Ahoy, born from the post-war reconstruction of Rotterdam, has been connected to progress and responsibility from the very beginning. This pioneering spirit has firmly embedded sustainability in our DNA. Since 1971, we have not only contributed to social and economic growth but also to a future-proof world. Sustainability is not an end goal, but a way of working. We incorporate a sustainable perspective into our decision-making, always keeping the client at the center.

CIRCULARITY

We strive to minimize the amount of waste generated both by our events and internally, while maximizing reuse.

PARTNERSHIPS

Stronger together for sustainability: through active collaboration, we achieve impactful results.

SOCIAL

We foster strong social cohesion by creating an accessible environment for everyone, both internally and externally.

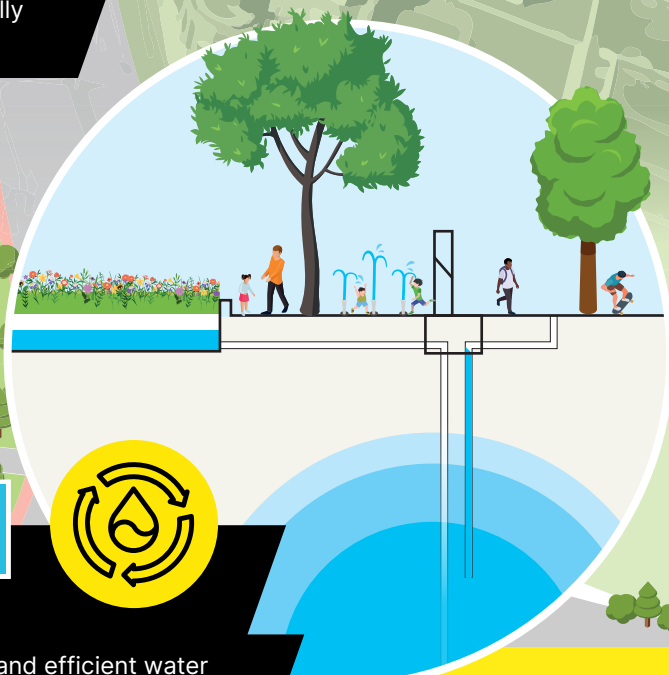

ENERGY

We focus on smart and sustainable energy management: we minimize consumption, use renewable energy, and optimize energy exchange within the building and with its surroundings.

WATER

We are committed to responsible and efficient water management for a resilient future.

Rotterdam Ahoy is
100% gas-free and powered
100% by renewable energy
