Reporting

Have you measured your carbon footprint (Scope 1-3)?

Scope 1: Direct emissions from sources you own or control directly, e.g. on-site gas heating, company vehicles, and fuel combustion in generators.

Scope 2: Indirect emissions from the electricity, heating or cooling your venue buys. Although generated off-site, these emissions are tied to your operations.

Scope 3: All other indirect emissions from your supply chain and event activity, including catering, waste, delegate travel, deliveries, and client or supplier emissions connected to events at your venue.

Do you have clear roles and regular reviews for sustainability?

Do you report performance publicly or to guests with numbers or examples?
