

the sign up flow

At MeAmora, we operate on an exclusive invitation-based sign-up process.

How do I invite someone to join?

In MEA, click on 'share sign up link' and either share an invite link by email or through your socials.

*Please note: If a prospect browses your sign-up link, leaves, and later goes directly to the main website to join, they won't land in your downline. **Please remind them that they must use your specific sign-up link right up until they register.** Once registered, the system automatically connects the downline to the upline.*

What is the step-by-step process for the prospect?

1. The prospect enters their name and email on your link to request an invite.

2. They instantly receive an email to **verify their email** address with a secure, quick link to a short registration form.

3. Once they submit that form, it **creates access to their MEA back office**. They have then unlocked access to the private area on Shopify where they can choose their starter kit. This area is only visible to those in the final stage of the sign up process.

4. **After purchasing the kit, the Stylist account will be activated.** They will receive the first of our welcome emails with the subject line: "Welcome to the MeAmora family!" Inside this email they will find: their personal website URL, unique Stylist ID and link to the MEA app.
