**Listening script 1**

Hi. It's Sally here. I had the baby this morning – it's a little girl, but she hasn't got a name yet! She's fine and so am I. Actually I really want to go home but the doctor says I have to stay here for two more days. It would be great if you could visit – the nurse says I can have visitors from tomorrow. If you can't come, then just give me a call. OK then speak soon. Bye!

**Listening script 2**

Hi. It's Pavel. I'm in the waiting room. I was lucky to get an appointment for nine thirty this morning. So it isn't long to wait. I feel really nervous, I never like coming here. My tooth really hurt yesterday, and this morning it was so bad I had to stay at home. I couldn't eat or drink anything. I hope he doesn't have to take it out. Anyway, I'm definitely going to the party whatever happens, so I'll see you there tomorrow night! Bye.

_____________ (Candidate A), in the **first** recording, where is the woman? At home, at the dentist's, or in hospital?

Thank you.

_____________ (Candidate B), in the **second** recording, where is the man? At home, at the dentist's, or in hospital?

Thank you. [Take back booklets.]

Now listen again, and answer these questions.

_____________ (Candidate B), in the **first** recording, when was the woman's baby born? [short pause] And how long does she have to stay in hospital?

_____________ (Candidate A), in the **second** recording, what time is the man's appointment? [short pause] And when is the party?

[Play CD again: scripts as above. At the end of the recording ask each candidate in turn their two questions again. After each question, wait for the candidate's response.]

Thank you.
Now you're going to talk together about the people you live with. Talk to each other about the people you live with or the people who live near you.

(Repeat if necessary. Withdraw eye contact to signal start of activity.

If necessary, prompt candidates with questions from the box below (e.g. if candidates are experiencing difficulty in continuing the interaction or if they stray from the topic). Adapt if necessary. Encourage candidate-candidate interaction by eliciting agreement or alternative opinions from candidates by asking questions such as “What do you think?”, “Tell us what you think.”, “And you?”)

**People you live with – prompt questions**

Is it better to live alone or with other people? (Why?)

Is it good for people of different ages to live together? (Why?/Why not?)

What’s a good number of children to have in a family? (Why?)
