

White-labelling

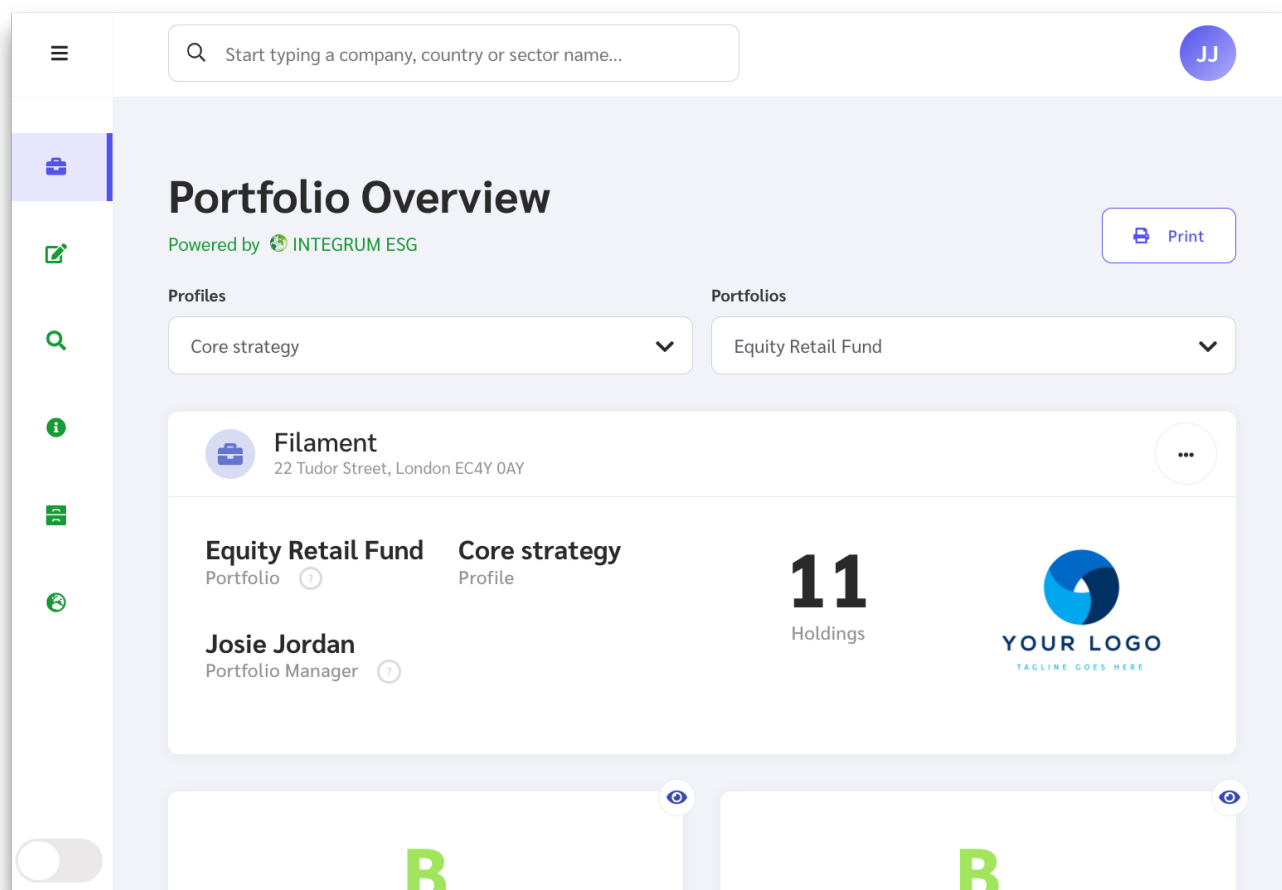

If you would like to white-label the Integrum ESG dashboard, or change the logo, navigate to the Account page.

Scroll down to this box. There is the option to use our logo ('Use Integrum ESG Logo') or for you to upload your own in JPEG or PNG format.

Make sure you click 'Upload Logo' when you have selected the correct logo from your file manager.

If you go to the Portfolio View, you will now see your logo. Your Organisation's name and address will already have been uploaded for you by Integrum ESG.

Your data licence allows you to present the dashboard and its data to your customers. You may want to hide the left-hand sidebar when you do this, to give more prominence to your firm's name and logo.

If you have any questions, just email contact@integrumesg.com.
