

Consultant

The London office has a number of opportunities for bright, hands-on, results oriented, experienced, professionals keen to operate on local and international engagements. Clients are medium to large companies who require concrete change that will positively impact their immediate and long term future. As an Associate or Vice President you will broaden your skill-set through a breadth of work delivering high impact and long term effect change implementation. You will enjoy working side by side with Directors and Managing Directors, some of whom may have taken on interim roles, providing you with top level insight and interaction. In return for your commitment and professionalism we provide a working environment that is highly challenging and stimulating combined with down to earth pragmatism and personal respect.

Role Description

Qualified candidates will possess significant experience in financial restructuring and operational turnarounds, which involves analyzing corporate structures and corporate performance and developing business strategies and advising and assisting clients in the areas of business and management reorganization, operational and financial restructuring, performance improvement and revenue enhancement. All AlixPartners consultants demonstrate the following:

- Strong analytical and critical thinking skills
- Delivers hands-on quality work products in multiple work streams, and can take full responsibility for several areas
- Understands business issues, not just technical ones and can communicate them effectively to team leaders and clients
- Proficient with more complex negotiations
- Conducts thorough quality reviews of own work along with that of team
- Demonstrates proficient project management skills, and manages and leverages AlixPartners and client team members as appropriate
- Communicates status of deliverables effectively to engagement leaders and clients
- Maintains relationships with stakeholders while achieving results
- Fluency in English and fluency in another language required. German, French, Spanish are a plus

Work Experience Requirements

- A minimum of 4+ years of applicable professional and consulting experience for Associates and 8+ years for Vice Presidents
- Experience in top consulting firms
- Mix of industry and consulting a plus
- Education; top engineering or business school
- Ability to thrive in a fast-paced, entrepreneurial culture
- Excellent written, verbal, organizational and executive level presentation skills
- Strong analytical capabilities in Excel, Access, SQL or other similar programs
- Hands-on doer approach, proactive, entrepreneurial, able to work autonomously and in a team
- Extensive business and financial modeling experience
- Excellent client delivery along with executive presence and communication skills
- Concentrated experience in one or more of the following: Manufacturing, Purchasing, Supply Chain, Operations, Cost Reduction, Industry, Applied Analytics, Information Technology Change Management
