

## Full Stack Web Developer

**Summary:** BATS is actively seeking a highly motivated front-end web software engineer with experience in dynamic website development.

**Location:** London, UK

### Responsibilities:

We produce tools and build websites that handle millions of requests per day, presenting high-quality market data to our members and the investing public. We build and maintain the primary interface for command and control of BATS markets in Europe. We are aggressive and agile. We care about code quality. We care about testing. We care about automation. We care about the user experience.

This person will be responsible for designing, developing and testing high-performance, scalable, data-driven Internet applications with professional browser-based interfaces using ExtJS, HTML and CSS with a Python-based backend. This person will also provide some operations support for BATS' trading systems, including a rotating early shift, and work closely with a US team to develop our global Internet applications.

### Personal Profile:

- Strong experience developing data-driven, highly maintainable websites
- Experience with Javascript and JS frameworks (Knowledge of ExtJS is a strong plus.)
- Familiarity with modern web standards, including HTML5 and CSS3
- Experience with Python and Python unit-testing
- Experience with Python MVC web frameworks (Django preferred)
- Experience with full-stack web testing is a plus
- Experience with Apache or PostgreSQL is a plus
- Degree or equivalent in Computer Science or related field preferred

### About BATS Chi-X Europe:

BATS Chi-X Europe (BATS) is Europe's largest stock exchange by market share and value traded and is headquartered in London.

BATS offers trading in more than 3,800 of the most liquid equities across 25 indices and 15 major European markets, as well as ETFs, ETCs and international depositary receipts, through one

connection. In addition, BATS Chi-X Europe's innovative smart order routing service allows cost-effective access to other MTFs and 13 primary exchanges.

The exchange launched its trade reporting service, BXTR, in November 2013. In its first month of operation BXTR became market leader.

BATS Chi-X Europe trading participants receive world-class support including sophisticated technical port services with real-time monitoring of latency, trading activity, network connectivity and risk management.

BATS Chi-X Europe is authorised as a Recognised Investment Exchange (RIE) and is regulated by the FCA.

BATS Chi-X Europe is the brand name of BATS Trading Limited, a subsidiary of BATS Global Markets Inc., a leading operator of stock and options markets in the U.S. and Europe and the largest intraday stock exchange in the US on any given day.

## **Employee Benefits:**

BATS Chi-X Europe offers one of the most exciting places to work in London with an opportunity to take on the established exchange sector with leading edge technology.

We have a casual dress code and lunch is catered for every day at no cost to our employees. Our compensation programme, made up of salary and bonus, is highly competitive. In addition, the company offers a retirement plan with matching contributions, a group health plan, gym membership and life insurance.
