What do these results mean?

Congratulations! You have passed this Microsoft Certification exam. The performance-based (PB) score (shown above) reflects your performance on the simulation questions; the non-PB score reflects your performance on the multiple choice section. For a complete list of skills measured on each component of the exam, please review the exam preparation guide, available from:
<http://microsoft.com/learning/mcpexams/default.mspx>.

Retain this score report to access your program benefits.

If this is your first Microsoft Certification exam, expect an e-mail from Microsoft that provides your Microsoft Certification ID and access information for the Microsoft Certified Professional (MCP) site (<https://mcp.microsoft.com/mcp/>). The password-protected MCP site is your access point for the proof-of-certification, technical, and community tools that are benefits of membership in the MCP community. You can download your logo or order a welcome kit or certificate, if applicable, on this site.

If you are already a Microsoft Certified Professional, return to the MCP site to view your updated transcript and download your logo or order a welcome kit or certificate, if applicable.

When will I see my exam results?

Please note that it can take up to seven business days for passing results to be displayed on your Microsoft transcript. If you do not receive this e-mail within seven days, please contact a Regional Service Center (<http://www.microsoft.com/learning/support/default.mspx>) for assistance; you will need this score report for verification.
