Please accept our congratulations on your success. Feedback on your performance is printed below.

The following report lists the objectives for which you answered a question incorrectly in the Introduction to Oracle9i: SQL test on the 52 scored items.

You may want to review and study the following objectives:

- Create and maintain constraints
- Sort the rows retrieved by a query
- Use character, number, and date functions in SELECT statements
- Describe the types of problems that subqueries can solve
- Insert rows into a table
- Delete rows from a table
- Create tables

Within 30 days of passing all required exams Prometric, Inc. will send your Oracle certificate by mail. If you do not receive your certificate, please contact fulfillment@prometric.com and provide your name, candidate ID, and current mailing address.

This examination was delivered at an Authorized Prometric Testing Center.
