CLSGQ75	<p><b>Patient safety</b></p> <p>You now have an opportunity to raise any patient safety concerns about your post.</p> <p>All doctors have a duty to act when they believe patient safety is at risk, or when a patient's dignity or comfort is being compromised. This includes raising concerns through local channels when they arise.</p> <p>The organisation where you are currently working may be the most appropriate and effective place for you to raise the concern and this should be your first consideration.</p> <p>What is the process?</p> <ol style="list-style-type: none"> <li>1. We require that all concerns will be investigated by your deanery/HEE local team</li> <li>2. To investigate your comment, we will share the following with your deanery/HEE local team: <ul style="list-style-type: none"> <li>▪ Your verbatim comment</li> <li>▪ Your training site</li> <li>▪ Your post specialty</li> <li>▪ Your programme specialty</li> <li>▪ Your training level</li> </ul> </li> <li>3. The deanery/HEE local team will liaise directly with the organisation/trust you are working for (your employer), in order to undertake a thorough investigation, as appropriate.</li> <li>4. CLSGQ88	<p>Am I guaranteed anonymity?</p> <p>No.</p> <p>Your individual answers to the multiple choice questions in the survey will always remain confidential.</p> <p>Concerns about patient safety that you raise within the survey will also be treated as confidential, and will not be made public by the GMC or shared outside the GMC's Education Directorate. However, because patient safety must come first, this is subject to three exceptions.</p>		Patient safety	
CLSGQ89	<p>Firstly, as explained above, we will share your verbatim comment and other information about you with your deanery/HEE local team so that they can investigate your concern. We will not routinely share your identity when we share your concern. However, in some cases, the deanery/HEE local team may ask who you are so they can ask you for further details about your concern. In this case, we will share your identity. This is because our first priority must be the care of patients. If we do this, we'll let you know.</p> <p>Secondly, if the concern you raise about patient safety becomes relevant to a fitness to practise investigation then we will share your comment with the Fitness to Practise Directorate. We'll let you know if we do this. This could include circumstances where fitness to practise proceedings are taken against a doctor, where there are grounds to believe that doctor has raised a concern that is not honest or made in good faith.</p> <p>We will share comments with appropriate regulatory bodies where there is a legitimate need to do so.</p> <p>In all of the above situations, we expect your full co-operation with the process. We value your openness and transparency and we will support you provided that you act honestly and in good faith.</p>		Patient safety
