

**To:** Business Coordination Board

**From:** Acting Chief Executive

**Date:** 02 July 2020

## **OPCC BUSINESS RESPONSE TO COVID-19**

### **1. Purpose**

- 1.1 The purpose of this report is to inform the Business Coordination Board (the “Board”) of the Office of the Police and Crime Commissioner (OPCC) response to the Covid-19 emergency in respect of its statutory roles and responsibilities.
- 1.2 This report is an update of activity since the reports to the April and May 2020 Board meeting. The April Board report provides background information, which the Board are asked to refer to if needed.

### **2. Recommendation**

- 2.1 The Board is recommended to note the report.

### **3. Background**

- 3.1 The Covid-19 situation means that business cannot be as usual. In order to respond to the emergency and fulfil statutory responsibilities, the Acting Police and Crime Commissioner (the “Acting Commissioner”) the OPCC, and Cambridgeshire Constabulary (the “Constabulary”) has to work differently within each of their statutory powers and remit.
- 3.2 As an Acting Commissioner can exercise all the powers that elected Police and Crime Commissioners have apart from varying or issuing a Police and Crime Plan (the “Plan”) (as provided for in the Police Reform and Social Responsibility Act 2011). The Acting Commissioner had already determined that the priorities of the Plan should remain for the coming period. Now that his term has been extended to 2021 he reaffirms them. The delivery of the Plan remains steady but the Covid-19 crisis magnifies the need to drive forward the objectives and activities relevant to the needs in response to the crisis in Cambridgeshire. He will continue to put support for victims centre stage ensure offenders are brought to justice and deterred from reoffending. He will also continue to issue crime and disorder grants in the context of the current Plan.

#### **4. OPCC response**

- 4.1 The Acting Commissioner continues to be in regular contact with Chief Constable and the OPCC receive information from daily operational calls and countywide partnership calls. The Acting Commissioner, along with other Police and Crime Commissioners, has regular conference calls, arranged by the Association of Police and Crime Commissioners, with appropriate government Ministers.
- 4.2 The OPCC has demonstrated that it has moulded and flexed itself with its input and actions at the right pace and right time within the framework of the Plan in response to the Covid-19 crisis (as given in the April and May Board reports).
- Chief Executive, as a trained clinician, has been seconded to Public Health England for six months (from May 2020) as Interim Deputy Regional Director and NHS Regional Director of Public Health for the East of England, to use her skills and experience where they are most needed during this crisis. An Acting Chief Executive is now in place, from existing staff, to cover the secondment period.
  - Redeployment of a member of staff to the Special Constabulary.
  - The Communications Manager engaged early and inputted heavily with countywide and partnership work i.e. the ‘warning and informing’ cell of the Local Resilience Forum (LRF).
  - The OPCC lead for work on Offenders continues to provide leadership and support into interagency groups regarding the resettlement of people leaving prison within the Covid context. Strong links built with public health colleagues to ensure current guidance can be adhered to.
  - The OPCC Victims Lead worked flexibly and pro-actively supporting victim service providers to redesign their services holding weekly supportive informal contract meetings.
  - Criminal justice system (CJS) – extra-ordinary Criminal Justice meetings have been called to identify the risks the crisis has created within the system, mitigate these locally where possible and escalate those where a national solution is needed.

#### **5. Victims Support Services**

- 5.1 The OPCC directly commissions a range of victim support services and supports the partnership working arrangements for domestic abuse services with the local authority. Since the start of the pandemic, services have been supported to move from face-to-face to telephone-based, online or virtual services. The focus is now on reviewing these arrangements and encouraging plans to look at new ways of delivering services rather than building up waiting lists for access to traditional methods of face to face support. For example ‘walk and talk’ therapeutic interventions.
- 5.2 The Victim and Witness Hub staff had stepped in to support new groups of victims. However, within the last month the Bobby Scheme, which provides target hardening for elderly victims of burglary, has re-opened. Support for medium risk victims of domestic abuse has also been handed back to local charities. This has enabled the Hub staff to refocus on supporting victims and witnesses whose cases are being listed in the courts as they gradually increase the number of cases they hear.

- 5.3 Since the May Board meeting report the OPCC has managed a local process to allocate extraordinary funding for domestic abuse and sexual violence providers on behalf of the Ministry of Justice. This is covered in detail in a separate paper which is covered at Agenda item 12.
- 5.4 Contract and monitoring arrangements (carried out via Teams or Skype) have continued with providers saving time and expense not having to travel to meeting locations. This arrangement will continue post-Covid with the exception of one face to face meeting a year.
- 5.5 Referrals into services still remain steady and reflective of local crime trends. However, providers are reporting an increasing complexity of cases.

## **6. Criminal Justice System (CJS) governance**

- 6.1 Through the Acting Commissioner's role to ensure an efficient and effective criminal justice system, staff from within the OPCC have provided additional support to this agenda supporting the Senior Policy Manager for CJS who is seconded from the Constabulary to the OPCC.
- 6.2 The existing Criminal Justice Board governance structure has been developed into an operational Gold/Silver command meeting structure in order to understand the emerging risks within the criminal justice system. Partners are meeting on a weekly basis to ensure that they remain abreast of each respective agencies' position and challenges. A collaborative approach has been taken to ensure justice continues to be delivered during these challenging times.
- 6.3 One of the biggest challenges has been listing/hearing cases in court, both for Magistrates and Crown Court. Due to the crisis period HM Courts & Tribunals Service (HMCTS) are leading a national response, with the formation of a national Recovery Plan. Local HMCTS representatives have been engaging with partners throughout in terms of what that plan means for us locally.
- 6.4 The Magistrates Court 'stood down' all non-urgent work at the start of the crisis and prioritised urgent cases, such as remands, bail applications and warrants. Priority trials have since recommenced, combining physical and virtual court means to enable these trials to recommence. Initial findings are positive.
- 6.5 The Crown Court has adjourned all cases involving a jury. The Court has continued to deal with urgent work where necessary. Discussions are taking place with the local Resident Judge as to when jury trials will be resuming within Cambridgeshire.
- 6.6 Discussions are ongoing in respect of the backlog for Magistrates and Crown. Prior to Covid-19 there was already a backlog of trials waiting to be heard in the Crown Court and this is something that needs to be considered as part of the recovery planning phase.
- 6.7 The Senior Policy Manager is also linked in with the Tactical Coordinating Group in terms of recovery planning with the CJ 'Gold' group reporting into that group going forward.

## **7. Offenders**

- 7.1 Through a range of partnership governance mechanisms across the county, and some grants, the OPCC facilitates and supports collaborative working relating to crime prevention and reducing reoffending. The OPCC has liaised with key partners on a regular basis to ensure emerging partnership issues or risks are addressed, and that opportunities for collaborative working are identified.
- 7.2 The Government announced the need, following appropriate risk assessment, for the early release of some prisoners in order to help manage the current health crisis. This is in the context of challenges for services providing support to these individuals, given the need for social distancing and pressures on services such as temporary accommodation. Supporting the prison and probation leads on these releases, the OPCC has facilitated a broad-based partnership group to undertake joint planning. In the event, early prison releases have not been required on a significant scale. However, those released during this period as 'business as usual' continue.
- 7.3 The OPCC has also provided a link with wider work to map the response for those groups that can experience exclusion. More recently this has included supporting the development of an Outbreak Management Plan for excluded groups.
- 7.4 The OPCC continues to support sharing of information and practical problem solving between a very broad range of partners. This will continue through the recovery phase, including facilitating work to ensure that new, more flexible ways of inter-agency working during Covid, can continue where this adds value.
- 7.5 The current situation has presented many challenges to local services. The scale and pace of change to service delivery has been significant. However, as well as enabling services to respond appropriately to the pandemic, flexibilities which have been put in place have also had a broader positive impact on support for vulnerable people. The recovery arrangements put in place in Cambridgeshire should enable the system to consider how these positive aspects might be maintained in the future.

## **8. Communities**

- 8.1 The Acting Commissioner has continued to support the joining up of service provision to listen and respond to day to day community safety issues during the Covid-19 crisis. He remains in regular contact with the Chief Constable as to the Constabulary's response to policing the lockdown restrictions.
- 8.2 Members of the community are being directed to the Government website for information on guidance on the current 'stay alert' restrictions and are able to report breaches on the force website, where there is additional information.
- 8.3 The Commissioner's Communications Manager continues to support countywide communications colleagues on the 'warning and informing' communications cell of the LRF to ensure communities have access to appropriate and timely messaging during the pandemic.
- 8.4 Campaign messages delivered and shared through the cell include regular updates on community safety messages such as advice about current scams, further support of NHS and Public Health England messaging on the regular washing of hands and the 'stay alert' measures and support offered through the countywide and district

Community Hubs. The OPCC also led a public campaign, ‘Cambridgeshire and Peterborough Against Coronavirus’ advising communities how they can volunteer locally to support vulnerable neighbours during the lockdown.

- 8.5 A social media campaign reminding victims of crime that support services continue to run throughout the health emergency was also launched with updates on specialist support services, e.g. for victims of rape and sexual violence, migrant victims of exploitation and potential victims of modern slavery.
- 8.6 This information is shared through each of the Communications cell members’ networks for example, Neighbourhood Watch and through the Acting Commissioner’s EcopS distribution list.
- 8.7 MPs and leaders are regularly updated with current communications priorities through a regular weekly call with the LRF Chairs.

**9. Transformation**

- 9.1 The draft Annual Statement of Accounts have been prepared and are available to view on both the OPCC and Constabulary websites.
- 9.2 External Auditors are completing their work and we are working towards having the majority of the final accounts complete by the end of July 2020. There may be some areas such as pensions that may be delayed as we receive information from other parties.
- 9.3 The joint Constabulary and OPCC Resource Group continues to operate looking at strategic issues, risks and business planning.

**10.0 Recommendation**

- 10.1 The Board is recommended to note the report.
