Net Spend Bonus

Receive 16.5% of your net spend on packs and in the market as contest credit.

Users with a net spend over £300 also get a ticket to the October Monster contest.

The maximum net spend bonus amount is £500 per user (which is rewarded for a net spend of £3030).

How to calculate net spend: (value of players bought in the market + price of packs bought in the shop) - value of players sold in the market = net spend

Example: If you buy players worth £200 in the market, buy packs for £70 in the shop and sell players worth £50 in the market, your net spend will be $(200+70)-50=220$ and you will receive $£220 \times 0.165 = £36.30$ as contest credit.

Contest Refund Bonus

All net contest losses up to £200 within this period will be refunded in contest credit.

How to calculate net contest losses: money or contest credit used to pay for contest buy-ins - money received as winnings from contests = net contest losses

Example: If you join 3 contests for £15 each and finish two contests without winning money and win £20 in the third contest, your net contest loss is $£15+£15+£15-£20=£25$

Any contest credit paid out from the 'Beat Kammy Freeroll' (contest id 1071101) does not count towards the net contest losses calculation.
