

# JAMES CROPPER

EST. 1845

## APOLLO

A distinctive paper with a soft-touch felt marked texture that is both elegant and individual.

The beautiful surface texture imparts a tactile and visual appeal to the sheet that distinguishes this text and cover paper. The irregular microgeometric pattern which is pressed into the paper during manufacture is perfect for high-end corporate communications.

### CHARACTERISTICS

- Fine felt finish for enhanced visual and tactile appeal
- Softly textured surface visible on one or both sides of the paper sheet
- As the texture is produced on the paper machine very large finished sheet sizes are possible
- Performs well with the most demanding graphic techniques
