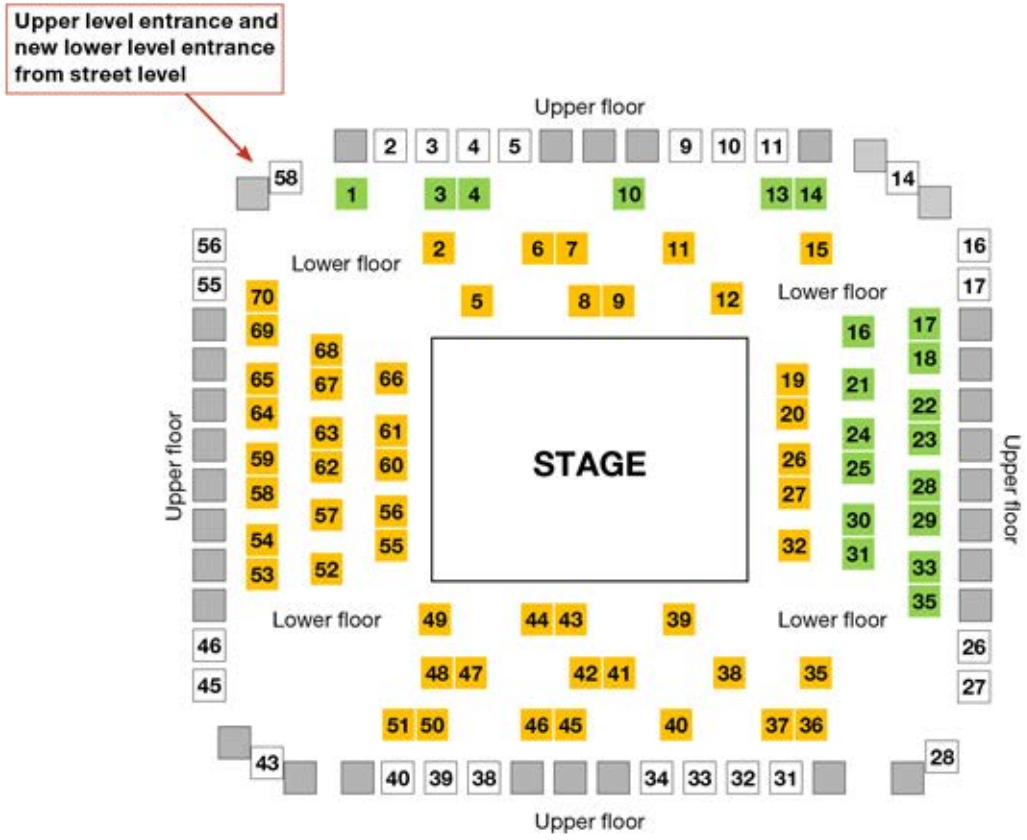
PHASE TWO SEATING FOR LAST EASTER

As we move into the summer with phase two for LAST EASTER, we will introduce some more individual seats in bubbles of one and two. On the upper level we will have bubbles of one, two, three and four seats available. The configuration of seats will change on the lower level, but the positioning of all seats will continue to conform with social distancing and guaranteed to be at least 1m apart. Seating capacity for the whole theatre will remain below 50% of the norm. Audiences should wear face masks unless exempt and safety measures detailed on page 4 will be in place.

Phase 2

- Raised seats
- Individual seats



Seating plan subject to change following government guidelines. NB not all seats will be immediately released to sale to allow for changing restrictions.
