

Dear worshipful Company of Needle-maker

At Gillwell we have done so many things such as: leap of faith, rock climbing, Kiaking, 3J swing, crate stacking, peddle carts and aero ball.

My favourite activities was Kiaking because I got wet and I always got stuck and someone had to rescue me and I managed to rescue other people!

I tried many new things such as, well pretty much all the things I have done at Gillwell!!

You have helped me so much by donating lots of money, because of you guys I could do things which I've dreamt of my whole life. I thank you with all my heart.

Thank you

your sincerely
Zaara

Dear worshipful Company of needlemakers
I really loved gillwald park because I got to do
things that I have never done before like 3G
Swing, Aero ball, kayaking, rock climbing, crane
stacking, Leap of faith. The thing I liked
the most was kayaking because I fell in the
water and the Rock climbing because I went
right to the top and Aero ball because
shot the most. The 3G swing was scary
for me because we went so high up.
I also liked crane stacking because
we me and these other girls ^{one of} called Zarha I
went with me. Our teacher put the
blocks up and then Zarha I stepped on the
block and we have fell down.

Thank you so much)
